1	Friday, 8 December 2023	1		father. He looked after my sister and myself and he
2	(10.00 am)	2		worked hard all his days. He had two jobs at one point
3	(Proceedings delayed)	3		to support the family.
4	(10.37 am)	4	Q.	And your mum?
5	MR CASKIE: Good morning, my Lord.	5		My mother worked as a home—help. She thoroughly enjoyed
6	THE CHAIR: Good morning, Mr Caskie.	6		her work because she was helping other people in
7	MR CASKIE: I have a witness today, Mr William Jolly.	7		a part—time job, and she retired I think possibly in her
8	THE CHAIR: Very good.	8		50s.
9	MR CASKIE: I'll ask for him to be brought in just now.	9	Q.	You say at paragraph 7 that your father suffered from
10	MR WILLIAM JOLLY (called)	10		vascular dementia ——
11	MR CASKIE: Have a seat, Mr Jolly.	11	A.	Yes.
12	My Lord, this is Mr Jolly. Are you able to see us?	12	Q.	and your mother, Alzheimer's.
13	THE CHAIR: Very good. Good morning, Mr Jolly.	13	Α.	Yes.
14	A. Good morning.	14	Q.	Briefly, can you explain the differences in the effects
15	Questions by MR CASKIE	15		of those conditions?
16	Q. Mr Jolly, would you tell us your full name, please?	16	A.	I think that the best way to describe it was we were
17	A. William Gray Jolly.	17		aware that my mother had Alzheimer's or had some kind of
18	Q. We're here to discuss the events leading to the death of	18		memory problems and my father was covering for her for
19	your father and mother.	19		quite a while. My father had vascular dementia and the
20	A. Yes.	20		difference was that my mother became very introverted
21	Q. Your father was born on 19 July 1931 $$	21		and changed personalities, whereas my father was
22	A. Yeah.	22		still $$ if you were to meet him, you wouldn't
23	Q. —— and sadly passed away on 26 April 2020.	23		immediately say that he had vascular dementia because he
24	A. Yes.	24		was still very active, reading newspapers. He kept up
25	Q. Your mother was born on 29 January 1933 and died	25		with current affairs and you could have a fairly normal
	1			3
	1			3
1	in September 2020; is that correct?	1		conversation with him.
1 2	in September 2020; is that correct?  A. Yes. I'll say yes.	1 2	Q.	conversation with him. But they both had those conditions?
2	A. Yes. I'll say yes.	2	Α.	But they both had those conditions?
2 3	A. Yes. I'll say yes. Q. You tell us a bit about your father and mother at	2	Α.	But they both had those conditions? Yes.
2 3 4	A. Yes. I'll say yes.     Q. You tell us a bit about your father and mother at paragraph 5 and your father at paragraph 6. Can I ask	2 3 4	A. Q.	But they both had those conditions? Yes. I think your father $$ and you detail this to an extent
2 3 4 5	<ul> <li>A. Yes. I'll say yes.</li> <li>Q. You tell us a bit about your father and mother at paragraph 5 and your father at paragraph 6. They [had been] together for 72 years. My father was [a] manager of Scottish Gas retail showroom in Aberdeen [and when] the showroom closed [my father] took a job as a meter reader, [taking him through to retirement]. He retired when he was 60 years old."</li> <li>Q. And paragraph 6?</li> <li>A. "When my father retired, he did a lot of voluntary work — meals on wheels, [he worked for] care and repair [which was a voluntary organisation]. He was, for a spell, the caretaker of the British Legion Hall He kept himself 'very' busy, he was a born organiser, an active member in the community. [And my mother] helped [him] with the meals on wheels, [she] joined a walking group and had her own interests."</li> </ul>	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	A. Q. A. A. Q. A. Q. A.	But they both had those conditions? Yes.  I think your father — and you detail this to an extent at paragraph 8 — Yes. — that your dad had other health problems. Yes. And your mum also presumably by that age would have had health problems? Yes. You took out a power of attorney? Yes. Is that exclusively in your name? No, my sister as well. Then you say at paragraph 10 that in 2015 effectively they moved house. Yes. How long were they in that house, the new house? In the sheltered housing? Aha. Well, I've got here about three years they were in sheltered housing.

1		in their previous house and we convinced them $$ well,	1		Christmas dinner but my mother was, so between the two
2		I think my mother had a couple of near—incidents on the	2		of us we spent Christmas $$ well, about three hours with $$
3		stairs $$ they had a staircase in their previous	3		them on Christmas Day.
4		$semi-detached\ house\\ and\ we\ managed\ to\ secure\\ with$	4	Q.	Was that an isolated incident, was that
5		the help of a care manager, to get them into a sheltered	5		a complete one-off, or did that fit in with a pattern
6		house that was a two-bedroom semi with a driveway and no	6		that was developing?
7		stairs . And they were both very, very happy actually to	7	Α.	No, there was a pattern of failure developing. My mum
8		move, and the other thing was it was monitored. They	8		and dad would get lost $$ I think at that point in time
9		had panic cords and latterly they were wearing devices	9		my father was still driving, which was extremely scary
10		that, if they had a fall or anything happened $$	10		for us.
11	Q.	They could press the button?	11	Q.	How was it for the neighbours?
12	Α.	you could get a local caretaker, which was just	12	Α.	More scary. I was getting phone calls that my father
13		a matter of about 100 yards away, to react.	13		had nearly hit somebody, that he was driving $$ he
14	Q.	Whilst they were in that sheltered housing, their	14		arrived at my house, he was lost, he couldn't remember
15		conditions deteriorated?	15		where he stayed. Anybody that's dealt with this will
16	Α.	Yes.	16		understand. I went to the police. The police said that
17	Q.	You provide a specific example of that around about	17		there was nothing they could do, "Had he been advised to
18		Christmas Eve 2017.	18		stop driving?", and I said "No"; "Well, what do you want
19	Α.	Yes.	19		us to do", and I says, "Well, my fear is there's going
20	Q.	Can you tell us what happened that night?	20		to be an accident". And my father didn't see this as $$
21	Α.	My wife and I had intended going in $$ to my son's in	21		I always look at it as if it was my son telling me that
22		Aberdeen for Christmas lunch and intended coming back,	22		I was no longer fit to drive. He got into quite a rage
23		you know, the same day. And my recollection is that my	23		about me saying that something was happening with the
24		mother and father, although they weren't particularly	24		driving.
25		concerned, there was $$ "What's going to happen to us?"	25	Q.	I think doctors were involved on two occasions in
		5			7
		Ţ.			,
1		came into our minds. So we decided to cancel our	1		relation to your dad's driving.
2		arrangements and told them we would produce Christmas	2	Α.	Yes.
3		dinner for them and we'd come down. That started an	3	Q.	Tell us about the first time.
4		epidemic, is the only way to describe it, of phone	4	Α.	Well, that's section $11  $ l'm going to have to refer to
5		calls .	5		some of the notes. But what happened was we had spoke
6	Q.	How many do you reckon?	6		to the doctor about my dad and they decided that he
7	Α.	Over 200.	7		would see a geriatric consultant from $$ am I allowed to
8	Q.	Over 200 ——	8		say the place?
9	Α.	Yes, in the space of about 36 hours. I actually printed	9	Q.	Yes.
10		them off. I've still got them. My mobile phone rung	10	Α.	Cornhill Hospital in Aberdeen and an arrangement was
11		virtually non-stop and the house phone, and despite me	11		made. So I got my father to drive me down to see how
12		even going down, my mother would phone and she couldn't	12		his driving was and it was a scary experience, but he
13		remember why she'd phoned, and then she told me my dad	13		was $$ you know, he was okay. We got there. We saw the $$
14		had told her to phone, and then my dad would start	14		consultant and, although it sounds like a comical thing
15		phoning, and that went on from 8 o'clock in the morning	15		to say, because my father was so up to current
16		till 11 o'clock at night on one day.	16		affairs $$ he spent his time watching news programmes,
17	Q.	How far away did you live from them?	17		TV, reading newspapers $$ I think he got 26 questions,
18	Α.	At that point in time we probably lived within maybe	18		and a lot of them were current affairs. As I said in
19		half a mile.	19		there $$ and I'm not joking $$ "I think he got a better
20	Q.	So did you go round?	20		score than me", you know, because he was really into
21	Α.	What we decided to do was cancel. We cancelled our	21		current affairs . He spent all his time reading the
22		lunch and we went to Marks & Spencer $$ I'm not	22		newspapers.
23		advertising $$ but we got fast-food Christmas takeaways	23	Q.	So in that assessment $$
23 24		advertising — but we got fast—food Christmas takeaways that we could put in the oven, and my wife and I went	23 24		So in that assessment $$ In that assessment he passed.

25 Q. And you failed?

that we could put in the oven, and my wife and  $\ensuremath{\mathsf{I}}$  went down. My father wasn't impressed that we'd arrived for

23

- 1 A. And I probably would have failed and would have had to 2 give up the car! I mean, that's what it felt like . To
- 3 let you understand, it wasn't a pleasant experience
- 4 because my father was extremely angry with me, and when
- 5 we got back out --
- 6 Q. Because you were trying to take his driving licence 7 away?
- 8 A. Yes. It was, "Ha ha, I'm still able to drive", and we go drove back home.
- Q. Was there any suggestion at that first meeting abouta brain scan?
- 12 A. He -- I recollect that it was suggested that he'd maybe
- 13 need further investigation, but he refused. That was
- 14 accepted.
- $15\,$   $\,$  Q. Okay. Now, you move on at paragraph 12 and, as it's
- ${\it 16} \qquad \qquad {\it helpful to you, I'll refer to the paragraph numbers} --$
- 17 A. Yeah.
- 18 Q. — and you talk there about him getting lost.
- 19 A. Yes, I'll just take a drink of water.
- 20 Q. Sure, I know.
- 21 A. I'm shaking.
- 22 Q. There's no need to shake.
- 23 A. Recounting this is not easy.
- 24 Q. No.
- 25 A. "[My] father was back driving and walking out and

9

- 1 getting lost ..." --
- 2 Q. You don't need to read it. Tell me what it's about.
- 3 A. What we were finding was the pair of them were going out
- 4 sometimes and getting lost, and quite often it would be
- 5 my father, and my father was still driving around town.
- 6 And on one occasion I was in Aberdeen and he arrived at
- 7 my house and, fortunately, my wife was there and he was
- 8 in a real state. He couldn't remember where he lived.
- 9 We found out subsequently he'd been driving around
- Ellon, looking for his house. He'd been seen at his original house, he'd been seen driving down the main
- road a couple of times, and our house at that time —— we
- had a substantial garden, you couldn't see the main road
- from our house, and how he found it, I don't know, but
- 15 he came to our door and he didn't know where he lived.
- 16 Q. And you were in Aberdeen at this point?
- 17 A. I was in town at the time, yes.
- 18 Q. Was there anyone in the house?
- 19 A. My wife spoke to my dad and gave him basically
- 20 directions to get home.
- 21 Q. Right. Was there then further contact with the doctor?
- 22 A. Yes. Fortunately for us a doctor, who is also
- $23\,$  a neighbour, was the doctor when my wife made a phone
- 24  $\,$   $\,$  call , because she -- by this time it was affecting my
- health. I was getting extremely stressed. My blood

- pressure was getting higher because I was dealing with
- 2 a situation that was rapidly getting out of control. So
- 3 my wife had phoned the health centre and the doctor, who
- 4 we knew, she told my wife to get myself to take my
  - father down to the doctors' that afternoon, and I did.
- Q. What was the outcome of that meeting with the doctor?
- 7 A. The outcome was excellent because the doctor that I saw,
- 8 who has a reputation locally for being a no nonsense
- old—school type of doctor -- when I went in with my
- $10\,$  father, he related what we had discussed, the fact that
- 11 my father was getting lost, he couldn't remember where
- he was, et cetera, and he said, "I see in your notes
- 13 that you declined getting a brain scan and I feel that
- there is memory issues", and he said, "That's correct",
- and he says, "Well, you won't be driving until you get a brain scan".
- 17 Q. So effectively the doctor took his licence off him?
- 18 A. And the consequences for me, apart from what happened 19 outside the GP unit and what happened latterly, were
- 20 horrendous.
- 21 Q. In what sense?
- 22 A. Well, I then had to drive my father home and take his
  - car away from the house because I knew that he would
- either forget or the temptation would be too much and he
- 25 would resume driving. So I told him that I would take

- 1 the car away until he got the brain scan, and the car
  - that he used was -- he said, "What's going to happen to
- 3 my car?", which was, by the way, virtually valueless.
- 4 It was an old, old car with a week's MOT. And I told
- $\label{eq:local_state} 5 \qquad \text{him } --\text{ I says, "Well, when you get your licence back,}$
- 6 we'll look at getting you a new car". So I took the car
- back to the house and I disposed of it within a week.
- 8 Q. Did that mean you became the chauffeur?
- 9 A. Absolutely. Much to my -- well, I wouldn't say "shock".
- $10\,$   $\,$  I suddenly realised that I had a predicament because my
- sister lives down this way, so wasn't available, and
- 12 I was always the focal point for anything that went
- 13 wrong in their house, and I mean —— I've had flooded
- 14 kitchens when they forgot to close the door with towels
- $15\,$  sticking out. The list is endless. So I was the first
- port of call.
- 17 Q. Did the personal care, cooking meals and things like
- 18 that did that deteriorate?
- 19 A. Yes. There was then a fairly rapid deterioration, much
- 20 to my shock, and thankfully, with my wife's support, we
- 21 then started the initial caring process, which was
- $22 \hspace{1cm} \text{embarrassing to speak about really, but their bed hadn't} \\$
- been cleaned in I don't know how many months. We
   actually disposed of all the bedding and went into town
  - and completely refurbished everything, duvet, covers,

which was so unlike my mother. My mother was always wife and I to be their main carers. 1 meticulous and my father was known for wearing, of that 2 THE CHAIR: Mr Jolly -- can I interrupt, Mr Caskie, for age group, an immaculate combination of clothes, unlike a minute? This is really just to help you. It may not 4 me half the time. My father was always well-dressed. help you, but I hope it does. I can see you've been 5 We could see it going downhill. understandably a little bit emotional at this. Can Q. By this stage were you thinking about a care home? 6 I say that within the past ten years I have been through 7 A. Well, there was more went on after that before the care exactly what you have described with my now late 8 home -- I mean, the care home was the next step. We 8 mother -9 didn't know how we were going to get into that mode. So 9 A. Okav. THE CHAIR:  $\,--\,$  and therefore, at least as far as I'm 10 probably for the months leading up to the final 10 11 situation where we'd no option but to look at care, my 11 concerned, you're speaking to an audience who completely 12 wife and I were both extremely stressed and distressed 12 13 because, for instance, on one occasion, I was taking my 13 A. I appreciate that. Thank you very much. Thank you. 14 father to the dentist because he had no car. When I got 14 MR CASKIE: So you spoke with the local authority and 15 down there, there was nobody there. So I'm now looking 15 did you speak with the local authority about a care 16 around the village -- it's a town, a small town --16 home? 17 looking for them, and I found him huddled in 17 A. We did. 18 a shop—front in the pouring rain. They couldn't 18 Q. And who selected the care home and how was that done? 19 remember why they went out. And that's the kind of 19 A. Again, because it was my mother and my father, we had an 20 thing we were facing on a regular basis. 20 issue of getting them both into the same home. We went 21 Q. So you moved on to consider a care home? 21 to some care -- my wife and  $\mathsf{I} --$  to a couple of care 22 A. Yes, we had a discussion and we thought, you know --22 homes that we wouldn't put anybody in, to be honest with 23 it's the same with the -- if anybody has dealt with this 23 you, and I think anybody that's visited care homes will 2.4 situation, bearing in mind it was both parents at the 2.4 be aware that there's variations in the quality -- in 25 same time. It was also that they weren't eating 25 the care and the quality and provision within the 1 properly and we were aware that they were -- my mother 1 buildings that you see. 2 The hardest part was -- well, in fact what we did was almost vegetarian, believe it or not. She would 3 only eat chicken or small bits of fish but she didn't come across was there was a possibility they might have 4 ever eat meat. She was eating anything, and that was to be separated, which I said would probably end their 4 5 the first shock for me. We had to get a private company 5 life very, very quickly because my mum and dad were 6 in to supply -- well, Wiltshire Foods we used to supply 6 never seen without each other. They were known in the food and try and get them trained into using a microwave town. You would never see my mother and father out 8 oven, which we often had to supervise. 8 alone, very, very rarely. 9 Q. Did you contact the local authority --9 Q. Joined at the hip? 10 A. Yes. 10 A. Yes, that's the best expression, yes. 11 Q. -- about a care home? 11 Q. So did you find a care home which could take them --12 A. Yes. firstly, did you initially find a care home with 13 Q. What was their attitude? Were they supportive? 13 14 A. Well, the other thing that happened that's been missed 14 A. Well, there was a couple of problems. We were hoping to 15 here is that they had carers coming in. We managed to 15 get them into a local care home. That wasn't possible. 16 16 It had to be a place that had support for dementia, so get visiting carers but --17 Q. How often would they come in latterly? 17 it had to be like -- a nurse in effect as well. I think 18 A. Initially it was once and then it was maybe three times 18 you'd call it. The care home that fitted the bill, that

16

19

22

23

2.4

20 Q. No. Let's just leave it.

we could get two rooms in, was -- can I name that?

30 miles north of where we lived, and that caused

problems for visitors, getting to the place, and they

offered us two rooms. And we went to see it and we

remote in that it was probably about -- I don't know --

21 A. Okay, the care home that we were offered was fairly

19

20

21

22

23

24

a day. I think, because we couldn't guarantee that they

would be in the house and we couldn't guarantee that

they would be willing to let them do anything. But we

found out that they actually weren't letting carers do

wouldn't let them do anything. So it came back to my

anything. You know, they were virtually going in,

chatting to them, having a cup of tea. My mother

- thought, "Okay, we can maybe do something with this even 1 2 though it's in a location that wouldn't have been 4 Q. Did you have an expectation of the quality of care that 4 your mum and dad would receive in terms of -- I don't 5 5 mean physical care. I mean activities and things like 6 6 7 8 A. Yes. Anybody that's had any dealings -- and again 8 9 I come back to this with care homes -- will see the 9 10 10 glossy adverts and the glossy brochures and the stuff 11 you see on the internet. but when you're actually 11 12 dealing with them, you find that it doesn't quite meet 12 13 13 your expectations. 14 Q. You say at paragraph 21 that, after a period, you came 14 Q. Did you change where you were living at that time? to the conclusion it wasn't meeting your expectations. 15 16 A. I think one of the things that happened, immediately my 16 17 mother and father went into this particular care home, 17 18 was that -- and this is actually quite shocking 18 19 really -- because we found out from staff that, because 19 20 my mother and father had been together all their days 20 21 and slept in the same room, even though they were in 21 22 their 80s, that they were given two rooms and they had 23 a bed -- single beds in each room -- what was happening 23 2.4 was, we found out from a member of staff, my father was going through into my mother's room and topping and 1 tailing in the same bed, which -- we were horrified and 1 2 they couldn't stop him. He just would not stay in a bed 3 in a room on his own, knowing that his wife was next 4 door, my mother was next door. 4 5 Q. And he had vascular dementia? 6 A. Yes. 7 Q. Now, at that time your children -- you have children of 8 8 9 A. Hmm-hmm.
- 10 Q. Where were they living? 11 A. They were in Aberdeen. Q. And did your children have children? Did you have 12 13 grandchildren at that time? 14 A. Yes, I've got grandchildren. 15 Q. Did you want to move down to be with your children --16 closer to your children and grandchildren? 17 A. If I can backtrack slightly here, back to the care home 18 they were in. 19 O Please do
  - A. We did eventually -- but we had to apply. We did --I don't know if it was a health and safety reason, but we said, "This is not sustainable. We can't have this happening with my dad". So they agreed to put two beds into one room and, because they were paying for two  $--\,$ they were self —funding at that point — they would allow

- the second room to be used as a small sitting room in that particular care home, so that stabilised things for Q. So you then decide -- am I right in saying you then
- decide to move closer to your children and grandchildren, to move to Aberdeen? A. I mean, I came from Aberdeen originally. My wife is
- a country girl. I decided that it would be easier for us to live nearer my son and daughter-in-law and grandchildren in Aberdeen and it would mean that, because the care home that we landed up going to was
- extremely handy for them, that Mother and Father would get more visits.
- 15 A. Yes. We decided to sell up and I would say we had a desirable house at that time. We had nearly an acre of land. We were in the middle of town. And we put our house up for sale during lockdown and lo and behold it
- sold. So we were in a panic. We managed to rent a house in Aberdeen till we decided what we wanted to do. So we moved into Aberdeen.
- 22 Q. You've already said -- how did you find what I'll refer to as "care home two"?
- 24 A. Care home two in Aberdeen?
- Q. Aha.

- A. We were delighted with it. It was totally different . The best way to describe it is it was like -- I always thought it was like a West Coast Victorian hotel. It was a former private club --Q. Sorry, just carry on. A. -- which had substantial public rooms. It even had
- a bar, which was -- you know, when my father saw that, he couldn't believe it. They'd retained the bar in the corner and they used to have residents as being 10 bar-keepers. It was the kind of place that, if I landed 11 up in a care home. I thought to myself — and my wife
- $\operatorname{did}\,--$  "This would be the place for me". And the 13 restaurant -- and it was a restaurant. It wasn't just 14 like  $\,--\,$  the previous place they were in was like 15 a canteen. There was just Formica tables, chairs, and 16 they were on an upper floor and there would only be 17 about maybe six or eight people dining, whereas in the 18 one in Aberdeen, there was a proper restaurant and it 19 felt like a restaurant. 20
  - My father -- the biggest worry when we did move them was, "How are we going to be able to afford this?", because they went from a fairly standard, very small care home bedroom to a double room with a bay window, looking over the garden, in a Victorian property, which was -- you know, they couldn't believe it.

22

23

24

20

21

22

23

1 Q. They'd landed on their feet? delighted  $\,--\,$  well, the both of them were delighted when 2 A. Yes, they were delighted, yes, and so were we. 2 the local school choir -- and they used to have a fairly Q. Social activities in care home two? regular -- we actually saw dancers coming in there, you know, the kids dancing. And anybody dealing with people A. We noticed a complete change. Care home one, the things that were advertised we found weren't happening. As far with dementia will be aware that, when we took the 6 6 as I'm aware, in the time they were there they had maybe grandchildren up to the original care home, it lit up one bus trip because they did away with the bus. So the place. You know, older people are delighted to see 8 what we found was -- and I think I've got it on my youngsters and some of these people in there never had 9 statement -- what we found -- we were going up randomly, 9 visitors, and that's the crying shame of it. 10 10 I would say, three times a week, maybe more —— I would We used to actually go and sit with other -- you 11 go up myself, go with my wife, and I would find my 11 know, like I would leave or my wife would leave and go 12 mother and father in a small room with the door closed, and sit with other people that staff told us never saw 13 the heating off the clock and the TV on, sleeping, both 13 anybody, and we actually had a couple of sort of, 14 of them sound asleep, and that could be 10 o'clock in 14 I think, adopted elders that we would visit. 15 15 the morning, half past 2 in the afternoon. So I got the Q. We're talking about care home two now. 16 16 A. Care home two -- yes, I'm off at a tangent there. Care feeling that they were an easy-going couple and they 17 were easy to deal with and they were left to their own 17 home two, yes, my mother and father were delighted that 18 18 the local school choir arrived and my granddaughter was 19 Q. And what about care home two? 19 one of those singing, so it was a different environment 20 A. Care home two, they had a different attitude. We were 20 completely. 21 told by the care home manager that we were introduced to 21 Q. I'm going to use a formal word that you don't use, but 22 when they moved in that they basically -- I wouldn't say 22 there seems to be a kind of induction process into care 23 "didn't tolerate", but they very strongly didn't 23 home two where there's a six—week review -encourage the residents sitting about in their rooms. 2.4 2.4 A. Yes. So -- and because they had to go to like the far end of Q. -- after they've moved in. 1 A. Yes. 1 a substantial building for their breakfast and things, they used the public areas most of the day. And in Q. Can you tell me about what happened at that six—week 3 there there was arts and crafts, there was -- my review from your personal experience? 4 father -- there was newspapers delivered. There was 4 A. The six—week review —— 5 a controlled TV area. 5 Q. Were you there? 6 Q. Did that make a difference to your --A. Yes. I was there, my wife was there, my sister, the 7 A. Absolutely, yes. care home -- sorry, the care manager from 8 Q. -- parents' mental acuity? 8 Aberdeenshire Council was there. And oddly enough, as 9 A. Absolutely. They were happy in there, yes. 9 was noted by -- again I've got to be careful here -10 10 Q. Visits. How often would you get in to see them? noted by the council care manager, the actual home 11 A. Well, that was a problem. We saw them a couple of times 11 manager didn't appear at the meeting, which she noted 12 and then, as I said in my statement, I unfortunately 12 was quite odd. 13 landed up with severe gastroenteritis . 13 Q. Did you have a health problem around that time? Did you  $14\,$   $\,$  Q. I' II pause you there. We'II come back to that. 14 have gastroenteritis? 15 A. Right. 15 A. Yes, I had gastroenteritis -- quite a severe bout. 16 Q. You said that you had a child who lived close by. Was 16 I don't know where it came from -- and I was advised to 17 he able to get in at that stage? 17 stay away for a few weeks. 18 A. My granddaughter? 18 Q. From ...? A From the care home 19 Q. Sorry. 19 20 A. Yeah. Well, yeah --20 Q. Did you do that? 21 Q. Well, your Aberdeen children. 21 A. Yes. 22 A. Yes, well, the advantage of the situation where they 22 Q. So what happened at the six-week review that everyone

23

was at apart from the management of care home two?

mother and father were very happy, and we kind of

 $24\,$   $\,$  A. Well, we all agreed that everything was going okay, my

23

24

were then was it took pressure off  $\,$  my wife and I because

my son and daughter—in—law and grandchildren could visit them because they were so close. In fact, my mother was

1 retired back to the private lounge, the residents' 1 A. Yes. lounge, and that was the last time that I saw my dad. Q. And then, at paragraph 43, you talk about 11 April --3 A. Yes. 4 A. That was the last time I saw my father. 4 Q. -- and that's fall number two? 5 Q. How soon -- because I think that meeting was on A. Yes — well, I think he'd had a couple of falls — on 6 10 March. his records I think there might be others. It was 7 A. Yes. notified on his records that he -- when he was in the 8 Q. When did lockdown happen for that care home? hospital, he had old injuries that -- I'm not sure if 9 A. I don't know. I do know that -- I think it's in my 9 I'm aware of them. 10 Q. Sure. Well, we'll stick to the ones in your witness 10 statement that my father had quite bad eyesight and he 11 always spent a lot of money on glasses and he always 11 statement. 12 wanted new glasses, and I'd arranged to take him to the 12 A. Yes, okav. 13 opticians, and I think it was on the 17th I put down. 13 Q. So this is fall number two, 11 April. And the 14 My wife's got a fantastic diary. And that, I was told, 14 description of the injuries , "bruised ... had a lump, the nurse had had a look at it and it wasn't deemed ... 15 15 leading up to it was on hold because it was likely they 16 would be locking down. And in the end I had to cancel. 16 17 I didn't get to take my dad out of the care home because 17 A. Yes. 18 they were locked down. 18 Q. That's accurate. 44, later the same day --19 Q. And you have a record of that appointment being A Yeah 19 20 cancelled? 20 Q. -- next fall, fall number three --21 A. Yes. 21 A. Yes. 22 Q. Okay. I'm now at paragraph 39 in your witness 22 Q. -- in your statement. 23 23 A. Yes. statement. 2.4 24 Q. Tell us about that one. Now, throughout the witness statement you've 25 referred to a series of -- your father suffering A. I'm best to read it off: a series of falls --1 1 "Later that evening, Saturday, 11 April, I got 2 A. Yes. 2 another call to say that [my] Dad had had a second 3 Q. -- and this is the first one that's referred to. What serious fall, hard on to the rear of his head and there 4 injuries did he sustain on 6 April 2020? was significant bleeding. That was at [11 o'clock at 5 A. Well, I think that was the one when he had banged his 5 night] and the care home nurse that [phoned me] was 6 head or, you know, he had some kind of head injury. [extremely] distressed ..." 7 And understandably because I was told there was Q. So this is paragraph 39. A. I was told there was nothing to worry about, you know, 8 a lot of blood and my mother obviously was involved, and 9 it was dealt with. I can imagine her being equally distressed. And I said 10 10 Q. Okay. Was he using a stick? there that: 11 A. Yes. Part of the aging process — having used a stick 11 "She was obviously in shock because she was dealing 12 myself for having repairs to my knees, it's not the 12 with my mother who was also extremely upset. She 13 13 said my dad was bleeding ... heavily and had nicest thing to do, and my father had to be coached to 14 use a stick. And he was actually starting to use 14 been blue lighted by ambulance ... on his way to the 15 a stick because he was a bit wobbly on his feet, on his 15 hospital ... ' 16 legs, a couple of times, and I had sort of coached him 16 Can I mention the hospital? 17 into thinking, along with the staff, that he should be 17 Q. Yes. 18 using a walking stick when he's out and about, just in 18 A. Aberdeen Royal Infirmary. And I put a note on there

19

20

21

23 A. Yes. 24 Q. If h

22 Q. So much blood?

A. Yeah. Similar, yeah.

19

20

21

22

23

24

of thing you say.

case he fell . And I think ironically on there, I did

say, "If you don't use a stick, you might land up in

hospital", which, you know, he laughed. It's the kind

tract infection and becoming more confused. Was his health at this stage deteriorating, at this stage?

Q. At paragraph 42 you talk about him getting a urinary

because I found out -- there was an item that I was

asked. My father was on blood-thinning medication,

Q. If he was on warfarin or something like that?

which maybe indicates why he had a substantial bleed -

- 1 Q. Then at 45 and 46 you explain that you couldn't get into 2 the hospital.
- 3 A. No.
- 4 Q. You called them numerous times.
- 5 A. Well, when I spoke to the nurse in the home, she says,
- 6 "You'll have to go to the hospital", but of course
- 7 I knew I wouldn't get in. So I was phoning and trying
- 8 to find out what was going on, and then, as I say, at
- 9 20 past 1 in the morning -- I kept a pretty -- I knew --
- 10 I've got to say this -- I knew that it wasn't going to
- end well. I had a feeling that this was going to get
- worse, so I kept a pretty concise, precise record of
- what was going on. So 20 past 1 in the morning I found
- out that my dad had been taken to x—ray and I believe
- 15 they said he was going to get scanned for his head
- 16 injury.
- 17 Q. Hmm-hmm.
- $18\,$   $\,$  A. "I was told to call back around six in the morning which
  - I did. [And] I was told [my] dad had had a CT scan and
- $20\,$  his results would be given [to me] later [and] he had
- 21 been admitted to ward 105."
- $22\,$   $\,$  Q. You then say that when your dad got to the hospital he'd
- 23 had a full bladder.
- 24 A. Yes.

25 Q. This is the first hint in your witness statement about

20

- 1 any concerns about the care provided in care home two.
- 2 A. Yes.
- Q. Was that, at that stage, something that was unusual?
- 4 A. Well, I just found —— to be told that when my dad
- 5 arrived with his injury, that they discovered he had
- arrived with his injury, that they discovered he had
- 6 a full blood and he had urine retention and they had
- $7\,$  fitted a catheter, and I did think to myself, "Well, why
- 8 did the care home ..." you know, he'd had a couple of
- 9 urine infections —— "Why didn't the care home notice or 10 consider that he had a full bladder?", because they do
- consider that he had a full bladder! , bec
- 11 fit catheters in care homes.
- 12 Q. Did they test him for COVID when he was admitted to the
- hospital, as far as you're aware?
- 14 A. Well, I think I need to go to section 49 because ——
  15 well. it says here:
- 15 Well, it says here:
- 16 "I called ward 105 at ten past eight to be told that 17 my father [would be] tested for COVID-19 and they were 18 awaiting the results .
- 19 "The ... nurse I spoke to said she was very confused 20 as to why he was Covid tested because he didn't qualify 21 for a Covid—19 test. I pointed out to her that it was 22 just as well because I had been advised by the new start
- care home manager ... the previous day that they had had a recent Covid—19 positive resident ...", who had been
- a recent Covid—19 positive resident ...", who had been taken in and then sent back to Aberdeen Royal Infirmary,
  - 30

- 1 so there was COVID in the care home.
- 2 Q. We'll do this bit carefully because it mentions a lot of
- 3 names
- 4 A. Okay.
- 5 Q. Prior to this, there had been a female manager in the
- 6 care home; is that correct?
- 7 A. Yes, yes.

9

11

- Q. And that changed and there was a male care home manager.
  - How did you find out about the change?
- 10 A. We weren't told directly by the company. We found out,
  - I think, through a member of staff and I had
- 12 a conversation with the new start care home manager.
- 13 Q. Did you find out what his level of experience was?
- 14 A. Yes. He had never managed a care home before. He
- 15 actually told me. But then it's difficult that I'm
- only -- I've got to be careful here, but I wondered why,
- in the things that happened afterwards, there wasn't
- a deputy care home manager, but we were led to believe
- 19 that wasn't necessary.
- 20 Q. You say in your witness statement twice that he was
- 21 inexperienced and was hung out to dry.
- 22 A. Yes, and he thanked me for that.
- 23 Q. Thanked you for ...?
- $24\,$  A. Saying that to his superiors.
- Q. Why did you feel he had been hung out to dry?

3

- 1 A. Because he -- the level of experience that he had in
- 2 being faced with the most horrific situation and
- 3 occasionally a mentoring manager coming from another
- care home, which had far more serious outbreaks of COVID
- 5 as it transpired, was the only thing he had to lean on.
- 6 And the other thing was that his area manager, who I had
- 7 dealings with, was very difficult to contact as well,
- 8 and when this particular new care home manager was off
- 9 ill -- I don't know if I'm allowed to say, but we found
- $10\,$   $\,$  out he had COVID -- we were given this particular lady's
- 11 phone number if we couldn't get information. And I had
- 12 phoned the care home before and -- because this is --
- 13 we're speaking about before my father came back or
- 14 after?
- $15\,$   $\,$  Q. Your dad's in hospital at the moment.
- 16 A. Right, okay. So this bit I'm talking about now is after
- 17 my father returned.
- 18 Q. Then we'll get to that.
- 20 Q. We'll try and keep it chronological. Let's go back to
  - the hospital.
- 21 the22 A. Yes.
- ${\tt 23}$  Q. Did the hospital inform you -- they said that they had
- 24 carried out a COVID test?
- 25 A. Yes.

1 Q. But you also had a conversation with them on 12 April for] Covid $-19 \dots$  I was horrified and distressed [to say about decision-making? it mildly]." 3 A. Yes. Q. So that's fall number four in your statement? 4 Q. Tell me about that. 5 A. I was told they were taking over any decisions --5 Q. And you're told during a phone call about a fall, 6 his fourth fall -because I was obviously extremely concerned about what was happening, struggling to get information, and --8 I don't know if you're talking about before or after my 8 Q. -- that he's got COVID? 9 father had falls in the hospital. 9 A. Yes. 10 Q. Before. 10 Q. And you indicate you were horrified and distressed? 11 A. Before. I was told that they would be taking over my 11 A. Oh. I was, ves. father's decision-making processes and that my power of 12 Q. Did they make enquiries as to the place that he had come 13 attorney was deemed irrelevant, because I said, "Well, 13 from in terms of COVID? Did they ask? 14 I've got power of attorney", and they said, "That's 14 A. It was all very vague. You know, I mean, I think the irrelevant. We are taking command over your father's 15 next stage we've got to go to is my father fell again. 15 16 decision processes while he's here". So I was put in my 16 But the thing -- I just felt there was a lack of 17 place basically . I was probably a bit irate , but I felt 17 control. I mean, having worked in the oil industry and 18 that I'd been put in my place. 18 done courses, I just felt myself that there was 19 Q. How did you feel about the effective removal of the 19 something amiss. 20 power of attorney? 20 Q. At paragraph 54 you indicate that you told the hospital 21 A. Well, I just had to accept it because I couldn't get 21 they needed to tell the care home. 22 into the hospital and nobody would have contradicted the 22 A. Yes. 23 decision that was made. I was led to believe it was  $--\,$ 23 "I explained that my father shared a room in the 2.4 2.4 well, indirectly, as I've said, the hospital, I was led care home with my mother ... who also had dementia and to believe, were acting on Government instruction, and 25 that they needed to tell the home immediately, as they 1 that went as far as when my father was sent back to the 1 already had [cases of COVID] in the [care] home. I was 2 care home [extremely] worried and expressed this. I was also Q. Now, this telephone call, according to your witness worried about another serious head injury, a fall in statement, I think, took place at 11.25. I'm looking at their care and the fact that [my] Dad was Covid-19 4 5 paragraph 51. Then if we move on to paragraph 53, you positive." 6 get another phone call in the same day  $--\,$ Q. Paragraph 55, you talk about your dad being moved to 7 A. Yes. ward 111 --8 Q.  $\,--\,$  at 20 past 6 in the evening. 8 A. Yes, well --9 A. Yes. 9 Q. -- and you talk about that ward having a nickname. 10 Q. Tell me about that one. 10 A. Well, yes. My dad was moved to ward 111 at 11 A. Paragraph 51? 11 Aberdeen Royal Infirmary, and a person told me, "Oh, 12 Q. 53. that's not good because ward 111 was a Cheerio door", it 13 A. 53. 13 was referred to, "and that was not a good ward to be 14 Q. Don't name the nurse. 14 in". I got really stressed out because I'd heard that 15 A. Yes. Well, leading up to that, there was the COVID-1915 somebody goes in there and might not come out, and I was 16 thing, the power of attorney. And then paragraph 53: 16 very, very anxious. 17 "At 18.20 ... the same day, Sunday, 12 April ... 17 Q. So the next day again --18 I got a call from a nurse ... who called to tell me my 18 19 father had another fall in the hospital, [and] this time Q. -- we're now on to 13 April -- you get another phone 19 20 he had landed flat on his face. He now had cuts on his 20 call --

,

2.4

21 A. Yes.

22 Q. -- from the hospital, telling you what?

another fall in hospital --

23 A. Monday, 13 April, I got a phone call from a nurse at

Aberdeen Royal Infirmary. She told me my father had

21

22

23

24

forehead and the side of his head requiring [stitching]

they were trying to control his movements but couldn't

restrain him or dose him [with whatever they use]. She

then went on to tell me my father [had tested positive

and she told me he was in a very poor state. She said

1 Q. Five. Fifth fall? remember his name -- and he was incoherent. You A. Yes. And this time he'd torn the skin on his elbows, couldn't speak to him. And they still intended putting which would probably require stitching, and he'd skinned him back to the care home, and they did. Q. From paragraphs 60 to 63, you describe a series of phone 4 his knees. I was horrified again. 5 Q. Did he have COVID symptoms at that stage? calls between yourself, Aberdeen Royal Infirmary --6 A. Well, I don't really know, but the reason I was told --6 A. Yes. it transpired that the reason that I was told he didn't 7 Q. -- and care home two --8 qualify for a COVID test was he didn't have the symptoms 8 A. Yes. 9 that were likely to be seen in a person with COVID at 9 Q. -- in which you were basically saying to those organisations, "Don't release my dad". 10 10 that time of the event. 11 Q. Could you read the first sentence in paragraph 58? 11 A. Yes, I pleaded with them. I pleaded with them not to do 12 A. "They told me they were still intending to discharge my it . I just thought it was insane. I mean, I was 13 13 worried not only about my dad, but my mother, and the  $14\,$   $\,$  Q. Okay, tell me about the word "still". When had that 14 assumption was that they would put my mother -- sorry --15 been raised as a possibility? 15 my father back in with my mother on the assumption 16 A. On discussion with the hospital, I was told abruptly 16 that -- well, the care home manager actually said to me, 17 that my father would be being discharged to where he 17 "Your mother's probably got COVID anyway". 18 lived, and where he lived was the care home and that was 18 Q. Can you read paragraph 64 for us, please? A. "The hospital basically put me in my place. They told 19 that 19 20 Q. From reading the statement, I know that you have 20 me I had no authority and that they would do what they 21 concerns about the timing of a potential discharge and 21 wanted to do, the consequences they were accepting. The 22 a discharge from hospital with the conditions, including 22 care home manager told me the same, the consequences of 23 the injuries --23 whatever happened would be because the hospital were 24 A. Yes. 24 discharging him. The hospital said it was Government Q. -- that he had suffered. But, as a matter of principle, instruction [and] the care home said it was hospital 1 was it right that, if your father had been fit to be 1 instruction, a doctor told me the care home could have 2 returned or to be released from the hospital, the care refused to take my father back in his condition." home had become his home? Q. But they didn't? A. Yes, if my father had been in a fit condition to be A. No. 4 4 5 discharged, the care home would have been his home, but Q. But the proposed discharge on that day came to be 6 the complication, as transpires, was that my father also cancelled; is that correct? 7 had a live COVID test. Q. Hmm-hmm. Yes, I applied caveats to take those things 8 8 Q. Was that for medical reasons or reasons at the care home 9 9 or was it simple logistics? 10 A. Yes, yes. 10 A. Logistics. I was told that there was a transport issue, 11 11 Q. What was your reaction when you were told he's still there was medication issues, so they would do it 12 going to be discharged? 12 probably the next day. Q. And what was the position in terms of your dad going 13 A. I couldn't believe it. I don't know how far along I can 13 14 go on the line here, but I couldn't believe that my 14 back, given -- and we shouldn't forget her at all -15 father -- I mean, I was told -- and I think further 15 given that your mum is still in the care home and 16 down, when my father was discharged -- I think 16 effectively they were in a double room before he went to 17 section 61 I'm looking at here, that: 17 18 ... my father was [going to be] discharged in such 18 A. Well, I don't think that was considered. I mean, my 19 feeling was that if my mother -- and I mean, I have a dreadful state with multiple head wounds, bandages. 19 20 dressings. [And] I told ... the nurse I had spoken to 20 provided photographs to the Inquiry and they're not 21 21 allowed to be shown, but if they were shown on that screen now and you see, my father came out of that 22 And my father was now -- and I was told by the staff 22

23

2.4

25

hospital looking like he'd been in a serious road

accident, and I think the effect it would have had on my

mother, with her dementia, would have been catastrophic.

23

24

in the hospital he was mentally damaged, he was doubly

hospital, he had no memory — he was struggling to

incontinent, which he wasn't before he went into

But they didn't accept that. They were hellbent on 1 getting my father out of the hospital into the care home, and at that point there was no intention of 4 isolating my father from anybody else. 5 Q. I don't want to put words in your mouth --6 A. No. 7 Q. -- apart from the fact that I'm going to! 8 A. Yes 9 Q. Were the hospital attempting to deal with the person in 10 front of them and not look at his overall situation? 11 A. Yes, I just think it was a massive failure in a duty of care. I mean, I actually asked if there had been --13 I mean, I grew up in an industry where risk assessment 14 was the way you operated because, you know, risks have 15 consequences. I couldn't believe --16 Q. What was your job? 17 A. I was a control room operator offshore, a process 18 technician offshore, and for about three years 19 I authored safety manuals and things like that for BP, 20 platform manuals. 21 Q. Platform manuals? 22 A. Yes. 23 Q. So although you don't know anything in particular about 2.4 hospitals --

Q. -- you know about safety structures? 1 A. No, but I just -- I was used to being in an environment where everything was risk-assessed, double-checked, 4 because there were serious consequences if there were 5 mistakes, and I'm looking at a situation where my father 6 has been seriously damaged in the care of Aberdeen Royal Infirmary in a three-day stay -- in fact two days did 8 the worst damage to him -- and they -- not only did he 9 have COVID, he was physically destroyed. And they were 10 going to present this situation to my mother and the 11 consequences would have been, as I've said, disastrous. 12 Q. When he went back to the care home, because obviously 13 the decision was taken --14 A. Yes. 15 Q. -- and taken out of your hands -- when the decision was 16 taken, do you know which room he went to in the care 17 home or were you told about that? 18 A. Well, I think the bit that has got to go before this was I had to force the hand of the new care home manager to 19 20 isolate my father. Right up until the last minute there 21 was no intention of isolating my father. He was going 22 in with my mother. I said, "Before you do that, I want 23 an email or a text accepting responsibility for any of 24 the consequences of this action".

that way?

- 2 A. No.
- A. No. My father was put upstairs after that. He was in
- a -- I think it was -- it's the same -- probably the 6 same area where my mother landed up when she died. It
- was a smaller room upstairs in the building, and that's
- where he spent the last few days of his life .
- 9 Q. Okay. You talk at paragraph 74 about what you describe 10 as a "weird picture".
- 11 A. Yes.
- 12 Q. Tell me about that.
- 13 A. Well, when my father -- leading up to this, I was out
- 14 for a walk. When I came back, my wife says to me,
- 15 "You're not going to believe this. Your father's on his
- 16 way from the hospital", on that date. It's on my
- 17 statement. When I phoned the care home to tell them at
- 18 about 10 past 9 that my father was on his way, they
- 19 didn't know. They didn't know that my dad was on his 20
- way. And that was when I had to push for my dad to be 21
- isolated, protected from my mother, until at least we
- 22 found out what the situation was going to be.
- 23 Q. Do you know if the care home was aware of the aborted
- 24 attempt to move him the previous day?
- A. I believe so, ves.

- Q. So they were told about that one?
- A. Yes. I think I spoke to them about that as well. It
- was a conversation with quite a lot of people at that
- 4
- 5 Q. Yes, I can see that from your statement.
- 6 A. Yes.
- Q. You weren't slow in coming forward?
- A. No. The thing is, they're playing with people's lives
- 9 and I just thought this is just -- it was just crazy,
- 10 you know, what was going on. Going back to the picture, 11 the weird picture, ves. I don't know if anybody else
- here -- probably most people have got iPhones, but on
- 13 the loop on the iPhone, I can -- when my dad was taken
- 14 into the care home, I got a picture sent to me by the
- 15 care home manager of my dad with bandages, cuts, blood,
- 16 a nearly closed eye, a swelling on the side of his head.
- 17 Now, I found out he didn't get scanned for his head
- 18 injuries he got in Aberdeen Royal Infirmary. He got
- 19 scanned for the head injury when he fell on to the back
- 20 of his head, but the more serious falls, in my 21
- opinion -- and I think the evidence shows it on the 22 pictures -- he didn't get a brain scan for the injuries
- 23
- he received in Aberdeen Royal Infirmary. He was sent 24
- back to the care home, as I say -- and the photographs
  - show it -- in a terrible state. The photograph I'm

Q. Were you provided with any reason for them proceeding in

25

A. No.

1	referring to was horrendous because, on the loop that	1	people at risk".
2	you get, you can hear him being asked to smile and he	2	Q. That's Sunday, 19 April we're talking about?
3	puts this inane grin on. And I thought, "Oh, my God",	3	A. Hmm.
4	and when I blew it up and saw the state of him, I was	4	Q. We'll pick it up on Monday, 20 April in 15 minutes
5	just horrified.	5	because the stenographers need a break. That's what

and I said, "Well, from what I believe, he's in such

a mess that my mother will react badly to seeing him".

introduce an end-of-life care, that there's no way back

and that the person is beyond hope, and yet I found out

- that my father had been mobile. He'd been walking 1 about, he had -- the poor man had been trying to get to 3 the toilet, he'd been shouting for help. And they had 4 started -- in my opinion, it was almost like a random 5 decision to keep him quiet, keep him in isolation, in 6 a room, in a comatosed state basically. 7 Q. At this stage, was there any talk about your dad going
- 8 back into your mum's room?
- 9 A. There was two attempts to get my father put back in with my mother, which I declined. I said, "You'll finish my 10 11 mother off". You know, what I've seen, "If you put my
- 12 father with my mother, my mother will go -- she'll just 13 go crazy. It will finish her off", yeah.
- 14~ Q. You've spoken about morphine and the other drugs that he 15
- 16 A. Yes.
- 17 Q. I understand that you then got a phone call from the GP 18 practice.
- 19 A Yes

16

17

18

19

20

21

22

23

- Q. Tell me about that conversation. 20
- A. It was a difficult conversation because out of the blue
- 22 I got a phone call from the doctor, and it was in
- 23 relation to my criticism of the use of the drugs, and he
- 2.4 said. "I'm told you want your father put on to
- 25 a morphine pump", which I think is a syringe device.

- And I lost the plot, I must admit. My wife was in on 2 the conversation. I said, "So you're phoning me on 3 whose authority?". I said, "Who gave you my phone 4 number?"; "Oh, the care home manager. He said you 5 wanted to speak to me". I says, "I don't want to speak 6 to you. Have you seen my father?". The conversation got quite heated, I said, "Because the way you're 8 talking to me now, if you're asking if I want my father 9 put on a fast-track way of actually  $\dots$ " -- I don't use 10 the word that I'm going to use, but ending his life --11 and I said. "and that is unbearable. I'm relying on 12 professionals , whoever ordered the  $\operatorname{end} - \operatorname{of-life}$ 13 medication, and how it's been applied is the 14 responsibility of the medical people that are doing it", 15
  - and I took offence to the phone call. He apologised for phoning me, and I've actually got a copy of his comments on the notes that I eventually got after three years, that -- it's a slightly different version of events, but I would agree with a certain amount of it. I then got a phone call from the new care home manager, apologising for giving out my phone number and also for the nature of the call . So we had words as well.
- 2.4 Q. You spoke about the new care home manager, the one who was inexperienced.

- 1 A. Yes.
- Q. You spoke about him going off sick. Do you know why he
- 4 A. I was told he was off with COVID, and it was -- I think
- it was on a Friday. What was happening when I was
- 6 phoning, when my father was put into isolation on the
- upper floor of this building, the phone would ring and
- ring. You'd phone the office, they'd transfer you, it
- 9 would ring forever and nobody would answer, and then you
- 10 would give up. You'd phone again and try again. 11 On a occasion that I phoned, I got through to the
- 12 area my father was in and I said I needed to speak to
- 13 [redacted] — sorry.
- 14 Q. Just carry on.
- A. I needed to speak to the care home manager, which will 15
- 16 need to be retracted --
- 17 Q. Can you give us just a second?
- 18

23

4

6

- Q. It had to happen! Let's press on. You didn't give the 19
- 20 full name, so let's press on.
- 21 A. Okay. I asked to speak to the care home manager and
- 22 I got pushed back down to the office to be told, "He
  - went away home. He wasn't feeling well". So at that
- 2.4 point I said, "Well, who is in charge of the care
- 25 home?", and there was confusion.

- 1 Q. Do you know when that occurred? When he was sent —
- when he went home?
  - A. I don't know. It's in my ...
    - (Livestream paused)
- 5 Q. Good afternoon again, sir. We're ready to proceed.
  - You were talking about telephone calls with the new
  - care home manager.
- 8
- 9 Q. Can you pick that up? Do you remember what you were 10 saying?
- 11 A. Yes. I had phoned the upper floor in the care home and
- I wanted to speak to the care home manager. I was put
- back down to the office to be told that the said care 13
- 14 home manager had been ill and he'd left to go home.
- I said, "Who's standing in for him?", and there was 15
- 16 confusion. That because there wasn't an assistant 17
- manager, as far as I'm aware, although a senior nurse 18 was shoehorned into that position at some point in time.
- 19 I was — I didn't know who to speak to.
- 20 Q. So far as you're aware, had that care home manager been 21 off for a fortnight?
- 22 A. I believe he was off for about five or six days with
- 23 COVID and back into the care home again.
- 2.4 Q. And did you raise that as a problem --

1		— in terms of self—isolating?	1		manager subsequently told me that my father had passed
2		Yes.	2		away quietly and peacefully and he'd been with him at
3		And what were you told?	3		the end. I say, "But you weren't there unless you were
4	Α.	The area manager, who incidentally resigned when the	4		called out because my father died at 1 o'clock in the
5		care —— the care home manager didn't know, but his area	5		morning". So I confronted him about this on the phone
6		manager, later on in this, basically walked off the job	6		and he —— I said, "You couldn't have been there because
7		and he didn't know that he no longer had an area	7		my dad — as far as I read his notes, he died between
8		manager. So I'd had conversations with the area	8		midnight and 12.30. He'd last been seen on his notes at
9		manager. In the event that I couldn't get ahold of the	9		12 o'clock. They said he died at 1 o'clock and he was
10		care home manager, I had to phone the area manager, and	10		pronounced dead at 4 o'clock. I got told at 8 o'clock".
11		I brought this to her attention. I said — well, it's	11		And the care home manager told me that he said he'd been
12		on my notes, section 90:	12		with him because he thought it would make me feel
13		"I received a call from [the care home	13		better, and I said, "Well, it's actually made me feel
14		manager and he said he had] Covid [but] would be back to	14		a lot worse because it was a lie and it was
15		work"	15		a significant lie". It undermined a lot of things.
16		So I believe he was off from Friday to Wednesday.	16		What I've got here is how can you possibly say to
17		I complained to the area manager that the care home	17		somebody that you're sitting with their dad when they
18		manager was back at work, and I got a reply saying that	18	_	passed away peacefully when you weren't even there?
19		they were following Public Health Scotland guidelines	19		You kept your own meticulous records —
20		for staff. I sent her a media link of a carer who had	20		Yes.
21		been suspended for not complying with the length of time	21		of what had gone on?
22		that they should be off before they return to work, and	22		Yes.
23	_	I retained the link, but I never got a response.	23		Why did you do that?
24		No response at all?	24	Α.	I knew from the start —— I knew from my father's
25	Α.	They just said that they were complying with the Public	25		injuries and what was going on with COVID that it was
		57			59
1

31 August 2020."

24

 $23\,$   $\,$  Q.  $\,--$  and you explain that over a few paragraphs, but

25 A. It's a very disturbing phone call because the care home

I think you can probably --

1 We then were allowed to have a meeting with ARI my mother was likely to have COVID-19. So if you read 2 staff, and that included the head of infectious into that what I read in, the risk was minimal. So 3 diseases, the consultant at Aberdeen Royal Infirmary. I did ask at that point in time was a risk assessment 4 My wife was with me, and he led us to believe or more or 4 done by the hospital, and maybe I'm fast-tracking into 5 less said that they were acting on Government this --6 6 instructions. Q. No, it's okay. 7 Q. Hang on, can I interrupt you there --A. -- but it transpired that no documents existed. The 8 A. Yes. care home manager told me that he had no discussions 9  $Q. \ --$  because you said two different things about that. 9 with the consultants at the hospital or direct 10 A. Did I? 10 conversations with a doctor on the method of looking 11 Q. "Led us to believe" and "Told us". 11 after my father and the distressed mess he was being 12 A. Well, told us, yes. returned back in, and I asked for these documents and 13 Q. Told you? 13 they don't seem to exist. 14 A. Yes. He said that, you know, there was a policy of  $14\,$  Q. Okay. I want to ask you about three sets of records --15 15 discharging patients back in the care homes to clear out okay? -- ARI. Aberdeen, the care home and the GP 16 16 practice. the hospitals. 17 Q. And that was the head of infections at Aberdeen Royal 17 A. Yeah. 18 Infirmary? 18 Q. Did you get the records from ARI? 19 A Yes 19 A. Yes. It was — it took over a year. I found 20 Q. A doctor that you name in your statement? 20 obstruction every single path that I took, and the worst 21 A. Yes. And the public weren't aware of this, and I asked 21 was the GP practice. 22 him directly -- because, I mean, you've got a rambling 22 Q. That's the next one I'm going to ask you about. 23 conversation and my words were, as far as I can 23 A. Yes. 2.4 remember -- and my wife will probably back me up --24 Q. Again, have you now recovered --I said, "You're head of infectious diseases in Aberdeen A. Yes. 1 Royal Infirmary and do you think the decision you made, 1 Q. And when did you get them? sending my father with live COVID into a care home, was A. About a month ago. the correct decision?", and he said, "In hindsight, no". Q. Right. And had you been involved since your father's death in trying to recover them? 4 Q. You then got a letter from NHS Grampian --4 A. Yes. 5 A. Yes. 6 Q.  $\,--\,$  and you quote from that letter. 6 Q. When did you begin that process? 7 A. Probably -- I don't know -- about a year and a half A. Yeah. Q. Can you just read the part that you quote? 8 8 ago/two years ago. I don't know. 9 A. "Quote, from revised NHS Grampian Letter of response 9 Q. A year and a half to two years -dated 24 September 2020, 'we agree that the rapid 10 A. I could find that —— certainly from an early stage 10 11 11 I tried to get all the medical records and, as time goes discharge of your father was not the best decision and 12 clearly caused your family considerable distress. by, you know, you start to -- it wears you out. I mean, 13 I nearly gave up a couple of times, but I couldn't give I hope you can accept our apology'." 13 14 There was no mention in the letter about the live 14 up. I just kept on going. And a point to note down here, what I would say is NHS Grampian were extremely 15 COVID discharge to the care home and ARI were fully 15 16 aware of the care home arrangements. I discussed this. 16 obstructive for me to get notes. I had to provide loads 17 In the period leading up to my father being discharged, 17 of evidence of who I was. The power of attorney died 18 I told numerous people --18 along with my father, as they were reminding me, so 19 Q. Because, if you read that quotation, that could be an 19 I couldn't -- even though they knew who I was, 20 20 individual being returned quickly to a house on their I couldn't use that lever. The worst case of all was 21 own, if you just read those words. 21 with the GP practice because most members of the public 22 A. No, I don't think that my situation was considered. 22 don't know what's going on with GP practices and part of 23 I got the feeling that the fact that -- and I told the 23 the reason that they're in decline is because they can't

24

24

staff in the hospital that my father shared a room with

my mother and the assumption that was accepted was that

be managed properly. What I found out was -- and the

reason I managed to get GP records was because an

1 English company, which I can't name, I found out had taken over the said practice and --3 Q. And that English company facilitated the release of the 4 GP records? 5 A. It was night and day. I got in touch with them --I wrote an email and I just said, "I believe ..." —— no, 6 7 I did this on a Google search. They've taken over two 8 GP practices in Aberdeen and one of them is the one that 9 I needed to get access to. Their safety manager was fantastic and I thanked her profusely. When I told her 10 11 the situation, "You leave it with me", and she got it 12 done in a matter of weeks. 13 Q. So we've got ARI, GP practice --14 A. Yes. 15 Q. -- care home records? 16 A. Yes. 17 Q. Did you recover those? 18 A. Yes, I got the care home records fairly early on. Q. Was that a difficult process compared to the GP --19 A. I don't recall it was particularly difficult but it 20 21 was a -- there were -- how do you put it? -- things in 22 there that didn't refer to my father that I reported to 23 the operations director because I'd given up dealing 2.4 with the care home manager. His area manager had walked 25 off the job, she just apparently resigned on the spot, 1

so I'd lost that contact. So I started dealing then with the operations director.

And, for instance, on my letter of complaint, which -- like there was two letters went to the operations director, to the company involved, and they said in the notes that my father -- numerous times my father needed help with his dentures. Now, my father was 88 and, thankfully, that's one of the things that --I've got his blood pressure problems, but I've got teeth, I've got my own teeth. I've no false teeth and I'm 69. My father had no false teeth. Very rare in a man of 88. He had a couple of dodgy teeth but he'd no dentures. So I brought this to their notice. I says, "Well, you know, you've got in his records  $\ \dots \ "--$  no, I nearly said his name -- "... that my father needed help with his dentures, my father needed help with his dentures. My dad didn't have dentures". Q. Let me ask you about that. That's clearly an erroneous

- 18 19 entry in the care home records.
- 20 A. Yes.

2

3

4

5

6

8

9

10

11

12

13

14

15

16

17

- 21 Q. What does that do to your impression of the other 22 records the care home have --
- 23 A. Well, it undermines my confidence that they're accurate.
- 2.4 Q. Aha, because it may not -- you know, it's one of those

66

things where it doesn't matter when they he's got

a problem with his dentures if he hasn't got dentures.

- If it was the other way round, that would be a more
- significant problem. But your concern relates to the
- accuracy of the records that are being provided to you;
- is that correct?

6 A. Yes, and when I got the records, I found out incidents that hadn't been directly reported to me. I was the 8 main port of call  $\,--\,$  although I've got a sister, I was 9 the main point of call . I live locally . I dealt with

10 the sharp side of this.

11 So when I got the records and I read them, that 12 jumped out to me right away, you know that -- the fact 13 that the care home manager told me that he'd been with 14 my father at the end and he admitted he wasn't because 15 he thought it would make me feel better, and then I get 16 the records and I see things in there that I was not 17 made aware of and things like my father needed help with 18 his dentures, when my father, at 88, didn't have

19 dentures

20 Q. Tell me about the death certificate that was issued. 21 Did you have a problem with that?

22 A. Yes. I got a phone call about the death certificate --23 excuse me. I got a phone call about the death 2.4 certificate and -- in fact, I haven't got a copy of it

25

here, but on the first line it was "COVID-19", 2019, and

1 his other issues , longstanding health issues  $--\,$ 

Q. Were listed at the beginning? 2

A. Yes, the circulation and -- it's a big word. I can't remember it now. But "COVID-19" was top of the list.

So when the doctor phoned me, I said, "Well, you know,

6 I dispute this because my father was sent out from

Aberdeen Royal Infirmary with traumatic head injuries.

His head was disfigured, he was covered in stitches, and

that's not mentioned". I said, you know, "He was 10

discharged from Aberdeen Royal Infirmary's care, he went 11 in with a rear head wound and he came out doubly

incontinent", and I went through all that thing,

13 "incoherent, his memory was gone and he had a horrible

14 death". I said, "All you've got is COVID-19", and the

15 conversation got a bit stressed. I don't remember the

16 exact wording, but the wording was that if I refused to

17 accept the death certificate, there could be

18 complications. It could delay the situation. Now,

19 bearing in mind --

20 Q. What situation?

21 A. Well, of getting my father -- my father's cremation.

22 And obviously -- I mean, it's a strange situation and

23 I don't know if other people have said this. When my

2.4 father died -- now. I spoke to the undertaker. Now, as

far as I'm aware, he was treated as contaminated even

though I don't know if he still had COVID. But he was Now, I could travel from Fllon to Ballater, which 1 2 put in a body bag or maybe two with the clothes that he was within Aberdeenshire, which was about 60 miles in 3 wore -- he had on a polo shirt, I think, his pyjamas one direction, but to travel 12 miles to the city limit. 4 latterly, in the last photos I've got. So he was taken 4 I could be seen as breaking COVID. That was how crazy 5 out of his bed, put in a body bag, put in a trunk and 5 it was. So I had to carry, you know, the funeral 6 6 paperwork in -- with me in the car to go there. taken to the mortuary at the rest rooms and put in 7 a sealed coffin, so he was treated as contaminated. Now, the reason that I'm saying the chap at the 8 So I'm thinking to myself, when I'm speaking to the 8 funeral parlour was good was because, when I went to see 9 doctor, it's highly unlikely now that they could do an 9 him, and he was -- they were under enormous pressure. 10 autopsy to find out what killed him and I would have had 10 When I was there, there was a woman near-hysterical in 11 to tell my family that I had halted proceedings because 11 the office, so it was very uncomfortable. He said to 12 I decided to dispute the cause of death. me, you know, what I could do is I could approach the 13 Q. So it wasn't disputed and the funeral proceeded? 13 hearse, they would open the tailgate and I could touch 14 A. Say that again? 14 my father's coffin . Now, you're still thinking that 15 this is COVID live, but I was told it had been 15 Q. It wasn't disputed and the funeral proceeded? 16 A. Yes. I had to accept that, in my heart of heart, 16 desanitised, but I had to wear full PPE and I had to put 17 I needed closure, I think my family needed closure, and 17 it on in front of the people in the car park. The only 18 the funeral arrangements were equally harrowing. 18 way I could touch my father's coffin was by doing that, Q. I'll come back to that in a second. 19 19 and I didn't think I had it in me to do it. I was 20 A. Yeah. 20 emotionally wrecked at this point in time. 21 Q. But you say in paragraph 137: 21 Q. Did you do it? 22 "The man I dealt with at the undertakers was 22 A. That was -- you know. So what actually happened was --23 excellent though ..." 23 and the other thing that other COVID bereaved have had 2.4 A. Yes. 24 to deal with was -- I was allowed, it was either 16 or Q. "... very sympathetic to our ordeal, he agreed to stop 18, I can't remember, we'll say it was 18, people at the funeral. We were allowed -- I think it was again six or 1 the hearse in front of my car." 1 2 A Yes 2 eight cars. The cars had to be in the East Chapel car 3 Q. "The funeral directors and workers ... were under park at Aberdeen Crematorium. We had to leave three 4 spaces between each car. We could only congregate in a enormous pressure." 5 A. Yes. little group, which was my wife and I in front of my 6 Q. Now, you have described in some detail in the preceding 6 car, my son and his wife in another car, my sister and 7 paragraphs the funeral itself -her husband in another car, and I had to tell family 8 A. Yes. members they could not go to, well, my father's funeral 9  $Q. \ \ --$  and you say that they had the hearse stop. You were 9 and that was difficult. 10 10 Q. Yes. able to get a photograph of the coffin in the hearse? 11 A. Yes. 11 A. So you've got to then compile a list of those that can Q. There were very limited numbers? go and those that want to go who couldn't go. So on the 13  $\operatorname{day}$  -- and we're lucky, it was a nice  $\operatorname{day}$  -- the hearse 13 A. Yes. 14 Q. You were in the car park for the funeral? 14 did exactly what the chap said he would do. He took 15 15 a note of my number plate and the car, and he pulled the A. Yes. 16 Q. Was there anything else significant about the funeral 16 hearse up opposite me. He said, "I won't be allowed to 17 that you want to say to me -- us? 17 linger, we've only got like ten minutes". So you 18 A. Well, when I had to go to the undertakers to hand over 18 imagine a hearse arriving. We were told we could have 19 flowers in the car but they would be a waste because 19 paperwork and you've got the cremation certificates and 20 20 all that to do, I was advised —— it seems crazy now. they would be destroyed immediately, so you'd only see 21 The police were stopping cars on the outskirts of Ellon 21 them momentarily, and he advised against it. He said -in case anybody was going outside Aberdeen City  $--\,$  and 22 22 so the hearse arrived with a blank coffin in the back, 23 I lived in the shire. I was living north of Aberdeen at 23 pulled out opposite me, and my sister and I were allowed 24 24 that time — and I was advised to carry paperwork in to go up to the hearse, but not touch it, and I took

72

case I got stopped by the police in my car.

a photograph of my dad's coffin. The hearse drove away

and they said, "We won't be going to the chapel side. 1 A. Yes. 1 We'll be driving to what is classed as the industrial 2 Q. Tell me about the visits. side". So it wasn't as if you could even walk down to A. The visits? 4 the front. It went a way around to what you class as 4 Q. Hmm-hmm. 5 a tradesman's entrance where my father landed up. A. Well, I think the first thing that needs to be said is, 6 Q. Okay, you talk next in your statement at 139 about when my father died, I got a phone call from, again, 7 a very reliable nurse that we had a good rapport with to personal protective equipment. 8 say, "We need to tell your mum that your father has 9 Q. Again, just reading -- having read that over, this was 9 passed away" -- now, bearing in mind my mother's got Alzheimer's -- "Would you like to do it?". Well, a difficulty in the care home, accessing PPE --10 10 11 A. Yes. 11 obviously. "Yes, I'll need to tell my mother". So I had 12 Q. -- and your son, because he works in the oil industry -to gear myself up, and I think it was on the same day 13 A. Yeah. 13 that my dad died -- was it the same day? I can't 14 Q. -- being able to access it. 14 remember. So they got my mother to a phone, 15 a loud-speaker phone, and I told my mother two or three 15 A. Yes. 16 Q. You were given information about the quality of the PPE 16 times that my father had passed away, in the nicest way 17 that your son was able to access? 17 of saying it. "Where's he gone?", I think she thought 18 A. Yes. Well, what you were seeing on the TV at that time 18 "passed away" meant he went some place else. I said, "Mum, Dad is dead. He's died". And she went 19 and particularly one of the managers of the company that 19 20 had the care home was that there was a lack of PPE and 20 hysterical, she dropped the phone and I was extremely 21 the quality of PPE was variable, and I knew, speaking to 21 upset. And the nurse came on the phone and she was 22 the care home staff, that they were struggling for PPE. 22 upset. She said, "Okay, Bill, we'll deal with your 23 And I discussed it with my son and my son made two phone 23 mother". 2.4 calls and he got top-quality PPE delivered free of 2.4 Q. Tell me about subsequent visits. charge. My sister did the same and got a friend to A. Subsequent visits were the same. When we did get to see deliver PPE and my neighbour at that time had a family 1 1 my mother, it was on the -- I think it was 2 metres at 2 linked to a business that did medical supplies, and he the time. We were allowed to see my mother outside in 3 said, "I'll get them top-quality stuff". They had the garden, and she's got a shawl round her because she 4 was quite frail, she was feeling the cold. I could see a shipment coming in from America. 5 Now, what arrived was -- it was so good that the a massive deterioration in my mother. She was now 6 care home manager and staff posed outside with some of alone. And, by the way, when I told my mother my father 7 had died, she went back to looking for him again. She the stuff. They got memory foam visors, high-quality 8 material that they were never given, and I think my view went back hunting around the premises and asking staff. 9 is it comes down to cost. It's availability and cost. 9 "Where's my Bill?", which was me. It just became 10 10 And that's one of the things I say later on. There unbearable. That's all I can say. 11 needs to be a standardisation, and these people are at 11 The visits with my mother were equally unbearable 12 high risk and they were at high risk. And later on because she couldn't understand why we couldn't be with 13 I said that. I really felt for the staff working in 13 her, we couldn't hug her, we couldn't go in for a cup of 14 that care home because they were dealing with people  $--\,$ 14 tea. And the last time I think I saw my mother in the 15 you know, some of them had been in the care home for 15 care home, she was waving out her window at the care 16 16 park because it was really cold, and I must admit the years -- dying. 17 Q. I want to ask you next about something that must not be 17 staff that were doing that, again, were fantastic. And 18 forgotten, and that's your mother --18 we had one member of staff in there who was actually

19

A Yes

22 A. Yes.

father.

A. Hmm-hmm.

Q. Your father has now died?

Q. And your mum is still in the care home?

2 know people that are there for a job and you know people 3 that are there because they enjoy what they're doing, 4 you know. I think the last view I had of my mother in 5 the care home was waving out the window of the dining 6 room while my wife and I left in a car. 7 Q. As I understand it, she suffered a stroke. 8 A. My mother suffered a stroke and she landed up initially 9 in Aberdeen Royal Infirmary and I went to see her there every day until she got moved to the Stroke Unit at 10 11 Woodend Hospital in Aberdeen. That was equally 12 traumatic because I wasn't allowed to touch her and by 13 then she was virtually unrecognisable and withering 14 away, you know, and just -- it was unbelievable. 15 I went in on a weekend and one of the nurses who I'd 16 been speaking to before was so distressed. I'm sitting 17 in a room about half the size of this and my mother 18 would be where you are and lying to one side and wearing 19 somebody else's clothes, by the way. That was another 20 thing that I don't think has been brought up. My mother 21 was presented to me in a wheelchair and I was told by 22 the nurse or auxiliary , "Look at the state of your 23 mother. She's wearing somebody else's clothes". And 2.4 "What do you mean?". She says, "Well, we don't know 25 where her clothes have gone". I said, "Well, she came

with care homes, you know natural caring people. You

1

in with clothes so ...". 1

I then found out that Woodend Hospital were not doing laundry because of COVID -- they asked me to take it home, which I refused to do -- they weren't doing laundry because of COVID. They were sending it to Aberdeen Royal Infirmary. I then found out that Aberdeen Royal Infirmary weren't doing COVID washing either and they were sending it in by the truckload to go (inaudible).

The reason I'm saying that is I've got the combination of my mother in distress and with a stroke and wearing very odd clothing. I got to touch my mother — probably it hadn't been the legal process, but this nurse was so upset, she said, "Look", I'm wearing PPE, "Put extra gel on your surgical gloves and hold your mother's hand". So I leaned over and my mother wouldn't let me go. She broke into tears and I felt physically sick and it stays with me now. She wouldn't let me go. And I discussed my dad with her, you know.

- 20 Q. From paragraphs 150 to 159 you detail the complaints 21 that you've lodged. I've taken you through each of 22 those. I don't think that we need to go through those 23 any further.
- A. Do you want me to read from 150? 24
- Q. No, I'm just saying I've taken you through --

1 A. Yes.

2 Q. -- all of that --

3 A. Yes.

4 Q. -- so there's no need for this to go into oral evidence.

5 I'm not trying to hide it. It will be there and

6 Lord Brailsford will read it.

7

8 Q. That also applies to some extent in relation to impacts 9 because I've very carefully taken you through the

10 impacts.

11 A. Yeah.

12 Q. But I do want to ask you a little bit about "Lessons 13

Learned". Again, that's something that the Inquiry will

14 read and will consider carefully.

15 A. Yes.

16 Q. But can I take you to paragraph 173, which is in "Hopes 17

for the Inquiry", because I think that's the only bit of

18 your account that we haven't covered and it's something

19 you want to say.

20 A. 173?

21 Q. Yes.

23

1

2

22 A. "My family and many others including Covid Bereaved

believe the Scottish Covid Inquiry has been compromised

2.4 by repeated media reports of the Scottish Government.

25 the Scottish National Party and others allegedly

deleting withholding and altering evidence needed for the Inquiry. I reported this to Lord Brailsford. The thematic approach in Scotland means those accountable are not questioned until next year [and] I had asked for

4 5 a statement regards this."

6 The reason -- even two days ago I met a neighbour, and he knows that I'm coming down here, and he's older than me, he's probably nearer 80/85, and he said.

9 "You're wasting your time". And this is -- I think the 10

general public -- and I'm speaking on behalf of my 11 family, friends, people I speak to -- cannot believe

that there can be constant reporting of the Government 1.3 deleting, altering and possibly withholding evidence

14 that will never be recovered, and I can keep

15 a meticulous record and yet I'm not employed to keep

16 this meticulous record. Now, those in a position of

17 power, from the First Minister, former First Minister,

18 the whole lot of them, that should be held to account 19 sooner rather than later.

20 Q. You've said that to Lord Brailsford?

21 A. I did, yes.

22 Q. You've said it again today.

23 A. Yes.

24 Q. I don't have any other questions for you. Is there

anything else that's important that we haven't spoken

1		about? I've tried to cover everything fairly .	1		DR ALAN WIGHTMAN (called)

2	Α.	Thank you.	2		more immediate, so I went to industry. And I first
3	MR	CASKIE: Do you want a brief break, my Lord?	3		worked for three years for a company that made
4	THE	E CHAIR: Yes, I would like to speak to Mr Gale and you	4		bituminous roofing felt . I then had a complete change
5		now, please, so we'll have ——	5		of direction and went to work for a company making food
6	MR	CASKIE: We'll go to the appropriate room.	6		contact papers, and I was there for 22 years.
7	THE	E CHAIR: Can you go to the appropriate room, please? In	7	Q.	All right.
8		fact, wait one second, Mr Caskie. Yes, I think just go	8	Α.	And latterly, the final ten years, I went and joined
9		to the appropriate room, please.	9		a weaving firm, weaving polypropylene fabrics for
10		Could you tell the audience that someone will make	10		industrial end use.
11		an announcement about what we're going to do in the next	11	Q.	Okay, thank you. The statement that you've provided the
12		ten minutes?	12		Inquiry with can perhaps be guided into two sections.
13		CASKIE: You've heard that. Thank you, my Lord.	13		Yes.
14		E CHAIR: Announcement made!	14	Q.	The first deals with the circumstances of the death of
15	(1.0	0 pm)	15		your late mother, Helen Wightman.
16		(A short break)	16		Yes.
17		5 pm)	17	Q.	We know from your statement that your mother died at the
18		GALE: Good afternoon, my Lord.	18		Scoonie Care Home at Windygates Road, Leven in Fife —
19		E CHAIR: Good afternoon, Mr Gale.	19		Yes.
20		GALE: The next witness is Dr Alan Wightman.	20		—— on 6 May 2020.
21		E CHAIR: Thank you.	21		Yes.
22		GALE: His wife is sitting next to him at the witness	22	Q.	She was 88 when she died and sadly she was suffering
23		table and Dr Wightman will be with us in a short time.	23		from dementia?
24		His statement, the reference is SCI-WT0254-000001.	24		That's correct.
25			25	Q.	The second part of your statement is that which begins

- generally from paragraph 77 onwards. It's not necessary to go to that just at this stage.
- 3 A. No.
- 4 Q. But you begin first of all by providing the Inquiry with
- 5 an overview of the concerns and impacts as reported to
- 6 you by other members of the Scottish Covid Bereaved
- 7 group; is that right?
- 8 A. Yes.
- 9 Q. As you tell us at paragraph 2 of your statement, you are 10 a lead member of that group.
- 11 A. Yes.
- 12 Q. Do I take it that, for the purposes of your evidence
- 13 today, you are speaking on behalf of that membership of
- 14 that group?
- 15 A. Yes.
- 16 Q. To follow on from that and perhaps just to set your
- 17 evidence in context, it's perhaps useful that at this
- 18 stage we take and begin with your involvement with the
- group, which you deal with at paragraphs 70 to 76 of
- $20\,$   $\,$  your statement. If that can be shown on the screen in
- 21 front of you.
- 22 A. Right. You want me just to read these?
- 23 Q. Yes, I'll just look at some of this in a moment, Doctor.
- 24 A. Okay.
- $\,\,25\,\,$   $\,$  Q. I think the other thing that we perhaps at the outset

- $\begin{array}{lll} & & \text{should acknowledge is that you have also provided} \\ 2 & & \text{a statement to the United Kingdom Inquiry} -- \end{array}$
- A. Yes.
- 4 Q. in relation to Module 2 of that Inquiry's
- 5 investigative work, and it's actually termed your
- 6 "Impact and inequality statement". It's dated
- 7 20 September 2023 and the Inquiry has considered that
- 8 statement. It has also considered the oral evidence
- 9 that you gave to the UKI, which you did on 4 October of
- 10 this year. For the reference, the transcript reference
- $11\,$  is to pages 132 to 146 of that day, 4 October.
- 12 A. Yes.
- 13 Q. Can we go to paragraph 70 of your statement, Doctor?
- 14 A. Yes.
- 15 Q. You begin by referring to an individual —— and it's not
- $16 \hspace{1cm} {\rm necessary} \ {\rm to} \ {\rm name} \ {\rm that} \ {\rm person} \ -- \ {\rm but} \ {\rm another} \ {\rm person}, \ {\rm who}$
- is another lead member of the Scottish Covid Bereaved
- group, mentioned to you, obviously after your mother's death, that the Procurator Fiscal was investigating
- 20 COVID care home deaths. You then contacted the
- 21 fiscal --
- 22 A. I did.
- 23 Q. -- and they confirmed that they were not investigating
- 24 your mother's death: is that right?
- 25 A. That's correct.

- 1 Q. Was that the local fiscal? Was it Kirkcaldy or was it
- 2 Dundee?
- 3 A. No, I think I contacted the Edinburgh office.
- 4 Q. The Edinburgh office, okay.
- 5 A. The reason my mother's death was not being investigated
- 6 was they had —— there had been a direction that care
  - home deaths due to COVID would be investigated, but only
- 8 after a certain date, and my mother's death preceded
- 9 that date.
- 10 Q. Preceded that.
- 11 A. But then subsequently, and challenged by me and others,
- 12 that was -- the dates were extended. I have to say,
- 13 though, that, in the three years sort of since, very
- 14 little appears to have happened. I do get periodic
- ${\it updates, I think it's every} \; -- \; {\it maybe every three months}$
- or every six months, and the update usually reads,
- "There is no update". And I think this is a commonexperience amongst other members of our group.
- 19 Q. I think the Inquiry knows that the Crown Office has an
- 20 operation is carrying out an operation called
- 21 "Operation Koper".
- 22 A. That's correct.

25

2

- $23\,$   $\,$  Q. And that is an ongoing operation considering deaths in
- 24 care homes during the pandemic.
  - But one of my questions to you was going to be:

87

- 1 you've not received any further update as to what is
  - happening with your mother's -- the investigation into
- 3 your mother's death?
- 4 A. I have not and I have not been contacted by
- 5 Scottish Police, who are carrying out that operation
- 6 that you spoke of. So, as far as I'm concerned, nothing
- 7 appears to have happened.
- 8 Q. No. Having reported the matter and achieved the
- 9 extension of the time period during which these matters
  10 can be reported, what was it you were hoping to achieve
- can be reported, what was it you were hoping to achieve by reporting the matter to the fiscal?
- 12 A. Well, if the fiscal had decided that this was a matter
- 13 that needed to be investigated, then it needed to be
- 14 investigated in all such cases, was one thing. I have
- 15 to say I do not —— as I have understood it —— and
- 16 perhaps incorrectly -- but what they are looking for is
- 17 any evidence of criminality or neglect or something like
- 18 that. In the case of my mother's care home, I do not
- 19 believe they will find anything. I think it was
- 20 a well—run care home and the staff did the best they
- 21 could in the very difficult circumstances they were
- 22 placed in . So it's not that I'm after anything against
- $23\,$  the care home per se; I'm not. It's just to make sure
- the investigation is as full as it can be.

  25 Q. Thank you. You tell us at paragraph 71 of your

ζ. ......, .... , .... , .... , .... , .... , .... , .... , .... , .... , .... , .... , .... , ... , ... , ...

1 statement that you became aware of the Covid Bereaved a Scottish-sounding surname, I would reach out and say, 2 Families for Justice Group, which was a UK-wide group. "Are you in Scotland?", and many times the answer would as I understand it. be "No". But slowly and over time, I started to contact 4 A. It was, yes. people who were members of the group who were in 5 Q. And that was because of the involvement, I think, of Scotland and I just was starting to collect the stories 6 6 a doctor, Cathy Gardner, and also — I think also and look at the similarities and threads. I called it a Ms Fay Harris, because they began a challenge -a "Scottish sub-group", but it grew and it kept growing 8 A. They did. and, ultimately, the UK group made it the first regional 9 Q. -- a judicial review challenge in relation to certain 9 branch, and at that point I was appointed chair of that, 10 10 documents issued by the Secretary of State, the in the meeting that was held by the then campaign 11 Westminster Secretary of State for Health and Social 11 12 Care, that certain documents that had been issued 12 Q. In September 2022 -- can I just check that is 2022? 13 in March and April 2020 were unlawful. 13 It's in paragraph 73. 14 A. That was the case that she brought and I think  $\,$  14  $\,$  A. September of last year, yes, just as the UK -- we got ultimately got a partial success with. But it was 15 15 down in October for the formal start of the UK Inquiry 16 reading the article about her and their campaign and her 16 and it happened just the month prior. I think it 17 companion's campaign that this group, Covid Bereaved 17 was September. But I'll go with that. That's the 18 Families for Justice, was mentioned. So I thought, 18 nearest I can remember it. It was round about the time 19 "I think I'll make contact with them and see what 19 that the UK Inquiry was beginning. 20 they're about". 20 Q. You say that, " ... we became the Scottish COVID Bereaved 21 Q. Just again, to set matters in context, the challenge by 21 Group". 22 22 A. Yes. Dr Gardner and Ms Harris was in part that those who 23 drafted the documents that were under challenge failed 23 Q. And that was separate, as I understand, from --2.4 24 A. It was. to have regard to the risk to elderly and vulnerable residents from non-symptomatic transmission --Q. -- the Covid Bereaved for Justice Group? 1 A. Right. A. It became completely autonomous from them, yes. Q. And what was the purpose of setting up that group? 2 Q. — because that had previously been mentioned by. 3 amongst others, Sir Patrick Vallance? A. The separate group? 4 A. Yes. Q. Yes. 4 5 Q. The citation for the record of the case is Gardner and A. When —— there's a bit of the story that I haven't come 6 Harris v Secretary of State for Health and Social Care. to yet, but when we were told by the First Minister that The neutral citation is [2022] EWHC 967 (Admin). there was likely to be a Scottish Inquiry and that she 8 I think you're aware that it was partially successful, 8 wanted us to be involved in setting the scope, we 9 as you put it. realised what a big deal this was and we needed to get 10 A. Yes. Yes. 10 some legal advice. We were bereaved members wandering 11 Q. Now, you say at paragraph 72 that when you joined the 11 about in a legal system, not sure -- and we had -- the 12 group, you made it your business to try and find out UK group had a law firm based -- I think they're based 13 other Scots who were involved or had similar experiences 13 in Manchester or -- Liverpool actually. Liverpool 14 as yours. 14 they're based. Not specialists in Scots law. So we 15 A. Yes. 15 asked, "Can we have a Scots lawyer?", and they said, 16 Q. Could you explain why you did that and how you did it? 16 "Oh, we'll pick someone for you nearer the time", and we 17 A. Because my bereavement was in Scotland and that's 17 said, "But now is the time. We might be involved in 18 primarily what I was interested -- I'm aware of the 18 scoping an Inquiry in Scotland. We need legal advice". And they said, "Well, we can bring Aamer Anwar to the 19 different jurisdictions, the different governments, the 19

20

what I'm about to say —— the UK group was predominantly

brought Aamer and he became solicitor for Scotland.

the evidence that's been given in the last few days in

1 English and was English-focused; for example, they were 1 A. Right. 2 dealing with the Care Quality Commission, which only has Q. You refer to it in paragraphs 74 and 75 of your 3 jurisdiction in England. It's of no help to people who 4 have got grievances in Scotland. So it became quite 4 A. Yes. Okay. 5 evident to us that we would need to think about 5 Q. You indicate that the UK group had asked for 6 separating. a meeting --7 We said, "We want Aamer to do not just Scotland, we 7 8 want him to do the UK Inquiry for us as well", and then 8 Q. -- with the then Prime Minister, Boris Johnson, but he 9 we were told, "Well, if that's what you want, you might 9 refused, as I understand. 10 want to think about going separate". So we said, 10 A. I think at that point in time he had refused five times 11 "Okay", and so it was a mutual -- not entirely amicable, 11 to meet with them and by the time the Sturgeon meeting 12 but a mutual agreement to split the groups. 12 happened, they'd been refused for a sixth time. 13 Q. Okay. How many members were there in the group, 13 Q. Okay. 14 approximately, at that time? 14 A. Now, the request that went from the group to the 15 A. Gosh. Now you're testing me. 15 First Minister was. "Boris Johnson won't meet with us. 16 16 Will you?". There was no mention of inquiries, there Q. Just an approximation. 17 A. I think about the time we met the First Minister, we 17 was no specific either Scottish or UK Inquiry, but, 18 only numbered something like 30 to 40 --18 "Would you meet with us?", was the simple -- I have a copy of the original letter that was sent to the 19 Q. Okay. 19 20 A. -- quite a small group, but it's grown, and at that time 20 First Minister's office, and she said "Yes" in February. 21 it was probably -- now, let me ... at one point in time 21 That was November -- let me back up a little bit 22 we were challenged to try and get up as high as 16022 again. Before that time -- and I can't remember exactly 23 members and I said, "There's no way". We were 40. How 23 when, but it will be a matter of public record -- it's 2.4 were we going to get to 160? We got there, I would say, 2.4 some time at the end of wave one and going through the by the date that we're speaking about, and today we're summer and into the new season of Parliament. At some 93 point the Scottish Parliament had voted that there 1 north of 200, pushing towards 250, I think. 1 Q. Does the group have a formal constitution or formal 2 should be an Inquiry into what happened in Scotland in office - bearers, anything like that? the care homes in wave one. That had passed through 4 A. No, it doesn't. What it had was the five people -- that Parliament. There was an obligation on the 5 was my -- again, we're getting ahead of the story of First Minister to do something about it but she wasn't 6 what happened when we had the meeting with the 6 doing anything about it. First Minister. By this time I'd started to do a bit of press in 8 Q. Yes, I'll come to that meeting in a moment. 8 Scotland and I was going in the papers and saying, "You 9 A. But there were four speakers picked jointly by one of 9 should have this Inquiry, you should have this Inquiry. 10 10 This is undemocratic. Your Parliament voted for this. the founders of the UK group and myself, and I was asked 11 to chair it. So the five of us that went and had the 11 You're not doing anything about it", and I was asked by 12 meeting online -- and there were other members who -- it the UK group, "Will you just tone that down a bit 13 13 was a Zoom meeting at that point in time because you because we're asking her for a meeting and, if we do get 14 couldn't do face to face -- and so we had other members 14 the meeting, we'd want you to be involved". So I did 15 of the group were also in the Zoom but didn't 15 back off and the meeting subsequently was held. 16 participate until right at the end, when a couple of 16 Q. Now, you tell us about five of you meeting with the 17 them asked questions. 17 former First Minister remotely --18 So those people, when we -- the group founder and 18 A. That's right. 19 the UK advisers and office—bearers were partly —— they 19 Q. -- in March of 2021.

9

23

2.4

20 A. Well, we --

21 Q. What was the purpose of that meeting?

22 A. It really was to tell to the First Minister directly the

stories of individual loss, and my role was simply to

chair and let these people tell their stories, which we

duly -- they duly did and did very well, and it was very

20

21

22

23

24

were listening in as well, but they were not

Inquiry should that fail.

Q. Let's just come to that area, if we may.

participating . But they were delighted that we'd won

the possibility -- we'd won the support to push for

a four—nation Inquiry, but the backstop of a Scottish

impactful. And -and then everyone was absolutely over the moon. 1 Q. Can I ask, just before you go any further, so far as the 2 including the UK group, at what had been achieved. reaction from the First Minister to hearing those But when we started to press them to say, you know, 4 stories, can you tell us what that was in general terms? 4 "We need to move on this. We need support", the 5 A. She seemed genuinely moved and at one point was actually 5 response was, "Scotland's had its turn. We need to 6 seen to wipe away a tear, and it did seem to be verv focus on other areas now", and that's when we started to 7 genuine. I'd also been given the brief, moments before realise we were going to have to do this ourselves and 8 the meeting began, "We've got four stories, right? 8 we would need a Scottish solicitor. It took from them 9 Don't let her respond to each one because, by the time 9 18 months or so before this split actually happened, but 10 she does it, we'll run out of time. You tell her she's 10 you could say perhaps that was the genesis of the split. 11 not to respond to the first story until the second one 11 In my mind, I thought we'd done something great and 12 is also done and then she can respond to them both". they would use that result and use it to drive the 13 I thought, "Ah, right. Okay". I did and, to be fair, 13 Prime Minister to have a UK Inquiry, and I believe that 14 she complied. So two stories were told, she gave 14 that ultimately is what happened. I don't think he 15 15 a reaction, two more stories, she gave another reaction. would have capitulated when he did on the UK Inquiry had 16 And at the end of the meeting -- I'd also -- to be fair, 16 there not been a Scottish Inquiry on offer first . So 17 I'd pointed out to her in my chairing role at the 17 I think we drove the whole thing forward on a UK basis. 18 beginning, "Of course, your Parliament has asked you to 18 Q. You were informed subsequently by the then 19 have a Scottish Inquiry, but we're asking you would you 19 First Minister that she wanted the group to be involved 20 support — would you go and negotiate with Mr Johnson 20 in setting the scope  $--\,$ 21 and tell him he should be having a UK Inquiry?", and she 21 A. Yes. said at the end of the meeting -- well, I've got the 22 22 Q. -- for the Inquiry. 23 actual quote --23 A. Yes. 2.4 2.4 Q. Was that a role that you responded to? Q. You quote it at paragraph 74. A. "I will strive for a 4-nation approach at least in A. Yes, we did. Not really knowing what that meant was the 97 reason why we said, "Well, we really need to get 1 parts, if possible. I will move ahead on a Scotland 1 2 only basis if a 4-nation approach is not possible." a solicitor involved to guide us on this". And that's. 3 Now, that was in March, and she said we would have as I say, when Aamer Anwar came on board as our 4 solicitor . a decision on that before the end of the year. 4 5 Q. So far as what was contained within that quote --5 Q. In point of fact, did you --6 A. Yes. A. Yes -- oh yes, we did. 7 Q. -- from the First Minister, the then First Minister, Q. -- give an indication of what you felt would be the 8 which you record in paragraph 74 -appropriate scope of the Inquiry? 9 A. Yes. 9 A. We did. We had a number of meetings. She appointed Q. -- did you get an impression from -- I won't say you 10 10 John Swinney, Deputy First Minister, as the instructing 11 11 minister for the Scottish Inquiry and we had a number of were in the room but you were on the Zoom call. 12 A. On Zoom, ves. meetings with Mr Swinney and his team, both the five 13 Q. Did you get an impression as to what you thought her 13 that had become the lead team at that point, four 14 reasoning was for going down this route? 14 speakers plus myself. We had those meetings and no 15 A. At the time we thought —— and she did seem to genuinely 15 doubt there were other meetings as well that took place 16 react to the stories she was being told and had said she 16 directly between our solicitors and the 17 would do this. Now, was it entirely altruistic, bearing 17 Scottish Government on the subject of what is the scope 18 in mind she had this thing hanging over her of, "Well, 18 of this Inquiry, what should it look like. 19 your Parliament said you need an Inquiry and you're not 19 I would say that our offerings were well received. 20 20 doing it"? There's always the trade-off -- we're We genuinely felt we were contributing. It wasn't 21 hearing a lot in evidence, in London in particular, 21 a tick—box exercise. We were contributing to the scope

22

23

24

Q. In paragraph 76 you mention the point that you in fact

	just told us about, that you maintain that it was the
	former First Minister saying that she would give us
	a Scottish Inquiry that forced the former Prime Minister
	to have a UKI.
Α.	I do.
Q.	You also say that had been fended off, I assume by
	Boris Johnson —
Α.	Yes.
Q.	—— during 2020.
Α.	As I say, five times they'd asked, and by the time we
	met with the First Minister it was actually six times he
	had rebuffed them, including the infamous $$ there's
	a clip where he's asked, "Why won't you meet with the
	COVID bereaved families?", and his response is, "Of
	course I'll meet with bereaved families". He left out
	the word "COVID". I picked that up straightaway. But
	that was him saying, "Of course I'll meet bereaved
	families" $$ not necessarily COVID families but, "I'll
	meet bereaved families". He did meet some COVID
	bereaved, but I think they were all rather sympathetic
	to his party's cause, you know.
Q.	Really, that gives a little background to your role, if
	we can consider that, Dr Wightman.
	Can we now go back to the circumstances that have
	led to you being here?
	101
	Q. A. Q. A.

- A. Yes.
- 2 Q. And those are in relation to the death of your mother.
- 3 A. Yes
- 4 Q. You tell us a little bit about her and reading short —
  5 and I mean no disrespect either to your mother or to
- 6 your late father in doing this —— but the family in
- 7 which you and your younger brother were brought up was, 8 as you put it, "a normal working class background in
- 9 a mining town".
- 10 A. Yes.
- 11 Q. I assume that's a mining town in Fife?
- 12 A. Yes.
- Q. You describe your mother and your father as verydifferent characters.
- 15 A. Yes, and Dad was quite a calm man, didn't speak a lot,
- but he was a really good judge of character, and it was
- $18\,$  I rarely saw him angry. He was the calming influence.
- 19 Mum was a little bit more flighty, a wee bit more
- 20 emotional, maybe, but between the two of them they made
- 21 such a blend. And I realise I haven't said much at all
- $22\,$  about either of them in this written submission, so if
- 23 I could just speak a wee bit more about --
- 24 Q. Please do.
- 25 A. -- the two of them as a couple.

They'd met — my dad didn't go down the mine. My dad became apprentice to a painter and decorator firm and he was — once he was qualified, he was trusted with the work's van, much to the annoyance of older and longer—serving members of the organisation. "Why are you giving it to the laddie?"; "Because I can trust him" was the response. But they used — and Mum actually worked as a shop assistant in the painter's shop. In those days, painters did actually have shops on the high street.

- Q. I think I can probably remember that. I'm old enough toremember that, believe it or not.
- 13 A. So Mum worked there and that's how she met Dad. So they 14 became an item. They were both very keen dancers, so they would go to céilidh dancing. It wasn't the formal 15 16 Scottish country dancing, it was a wee bit more loose 17 than that, but they were very, very keen and every 18 weekend they'd be out to some dance somewhere or other, 19 and of course Dad, using the van, would run them to 20 different towns, different locations, so they became 21 quite widely known in their youth.

Then when the two boys come along, they sort of —— Mum stopped working and became a full—time mum and they didn't have the time to go dancing so much. But once my brother and I were up and raised, they went back to the

10

dancing, and it was very rare —— my wife just reminded me of a story. I wanted to tell one about both Mum and Dad but I might accidentally name my dad in telling it, so I'll tell this other story.

We took Mum — by this time she was widowed and living on her own and she wanted to go and see André Rieu. So we thought — he was coming to the SEC in Glasgow — "Let's go and take Mum to see André Rieu". So we were way out of Fife, we were through in Glasgow, we were in this big auditorium, there's 8,000 people or whatever, and we're way up in the gods. And we go in, down the steep steps, help Mum down, shuffle her into her seat. She sits down ready for André Rieu. And this woman leans over and taps her on the shoulder, "Hello, Helen". She was just one of these people — anywhere she went, somebody would know her, and Dad was the same. You couldn't walk down the street in Fife but that somebody would be shouting "Hello" to them. It was incredible. Very sociable people.

And of course Mum, working in the local shops, was known throughout the community as well, and in those days it was more an Arkwright type, behind the counter. You asked for what you wanted for. You didn't go pick it yourself. So, yes, that's a flavour of who the two of them were.

102

Q. Well, thank you for that. 1 You personally moved away to pursue, as you've told 3 us, your academic and then your professional career, but 4 I think your brother always lived close to your parents. 5 A. He always lived in Fife, yes. Yes. Q. And I think you tell us that your father sadly died in 6 8 A. That's actually a typo. It's 2015. 9 Q. 15? 10 A. Yes. 11 Q. Thank you. He had dementia and your mother had looked 12 after him until the end of his life? 13 A. She'd looked after him until I think -- not quite two 14 years before he died, and he just -- I've heard some of 15 the other witnesses speaking about dementia in the 16 family. And Dad would wander. He would get up at 17 3 o'clock in the morning and go for a shower and get 18 dressed, ready to go out to his work. And he would --19 sometimes he would just leave the house and he wouldn't 20 have said where he's going, and my brother and my uncle 21 would be driving round looking, "Where's Dad gone?", you 22 know. So it became a problem, to the point where Mum 23 was getting worn out with it and we had to put him in 2.4 a care home.

Q. I think your mother was also diagnosed with dementia --105

1 you tell us about that in paragraph 12 -- after the 2 death of your father. 3

A. She was, and I think -- I've been thinking about this a lot recently. I don't know if some of the origins of 4 5 that might have been showing themselves while Dad was 6 still alive because Mum got really, really anxious. We'd put him in the care home so she could have a bit of 8 her own life, and yet every single day -- every day she 9 would go to the care home to see him, and she wouldn't 10 always come out -- she wouldn't always come out happy 11 because maybe another resident had said something or 12 a nurse had said something to her, and it was just 13

I wonder now if some of that was the beginnings of dementia in Mum as well. But once Dad died, we went to see Mum every week, and my brother would be there and my uncle would be in every day, looking after his older sister. For a while she seemed to almost kind of get used to it, but then, whether it's being on your own all the time, she started to become really, really anxious. Phoning her brother -- I mean, I remember one incident, there was a piece of furniture and Mum had been dusting around and she'd looked down and lying on the floor was a screw: "Where's the screw come from? Where's the

screw come from?". She was phoning my uncle. He had to

106

go round and assure her that the house wasn't about to

fall down, that everything was fine, that it probably didn't even come from that piece of furniture and it had

been lying there for a long time. But it was little

things like that Mum would be worried about and quite 6

anxious on the phone, and it became apparent something

was wrong.

8

9

Q. I think you and your brother at some stage obtained a power of attorney in relation to your mother.

10 A. Yes. We'd actually put that in place when Dad was 11 diagnosed with dementia but they had the foresight to

make it for the both of them -- or two separate powers,

13 whatever it may be. But, yes, that had been put in

14 place in advance of being needed really in the case of

15

16 Q. You tell us in paragraph 14 that your brother was in 17 fact the primary carer for your mother.

18 A. No, again that shouldn't say "primary carer". He was 19 her primary attorney. He didn't do any of the caring. 20 He was her attorney. So anything to do with Mum's 21 affairs, my brother was the point of contact, because he 22 lived closer and over the years that had been the way

23 things were. He was the one that was nearest. I was

24 always the one that was furthest away.

Q. You think that after finding your mother in a slowly

1 distressed state, your brother was able to arrange for

her to go into respite care --

A. Yes, and this is where --

Q. -- in March 2019? 4

5 A. Ironically, Mum was a -- it was a semi-detached house

over two floors and the bedrooms were upstairs, the

bathroom was upstairs, and my brother said to me at one 8

point, "I'm going to go in there one day and find her 9 lying there at the bottom of the stairs". He found her

10 in this very distressed state. He'd arranged for

11 respite care and, ironically, the very first night she's

in the care home for the respite care, she falls and

13 breaks her hip. She then goes to Victoria Hospital, the

14 hip operation is done, it's a success, but she's not

15 waking up, she's not waking up from it. She's got

16 delir - -- I remember going to see her and she's lying

17 there, and I went over and spoke to her, and then she 18

grabbed my finger and she's rubbing her nose like this 19

(indicates) crazy, and I went, "What are you doing?", 20 and I took the finger -- "No, no", she's grabbing the

21 finger back. The nose must have been itchy, but she was 22 using my finger to scratch it rather than -- it was

23 a bizarre moment. I thought, "Are we ever going to get

24 you back?", but after about two weeks of delirium, she

did come round, and then she went to a convalescent

14

15

16

17

18

19

20

21

22

23

- hospital for about five weeks and then she went to the 1 2 care home.
- 3 Q. Yes.
- 4 A. And then in the care home I have to say we got our old 5 mum back. She wasn't anxious, she was being looked 6 after, someone was there to tell her when it was time to eat, when it was time for medication, someone would help 8 her bathe. And we got Mum back and it was lovely.
- 9 Q. I think you say coincidentally the care home where she 10 was placed at Scoonie Care Home in Leven was one that 11 you had in fact looked at earlier, when you were 12 considering a care home for your father.
- 13 A. That's correct, and that was the one -- if I'd had 14 a free choice, that was the one that I would have put 15 Dad into. But at that point in time they said the 16 ground floor was not secure and Dad was recognised to be
- 17 a wandering risk and therefore he might escape, and they 18  $\operatorname{didn't}$  — they couldn't be responsible for that so they
- 19 couldn't take him. That fault -- that feature was 20 subsequently addressed to make it secure and, by the
- 21 time Mum went in there, it was a secure unit.
- 22 Q. Just a few observations, if we may, about your mother's 23 care pre-pandemic. You say at paragraph 21 that, while 2.4
- you had some issues with the care home, you conclude that it was well-run and the residents seemed happy

1 enough.

17

18

19

20

21

22

23

2 A. Yes. I would pay keen attention when we went in to 3 visit Mum -- she was often sitting in the lounge with 4 the other residents and I always had one eye on Mum and 5 the other eye on the staff interacting with the other 6 residents, and everything seemed to be done with genuine care. There was empathy between the staff and the 8 residents. The complaints I had were -- I would say 9 they were minor. I don't necessarily mean minor -- the 10 fact of not having enough activities is common. That's 11 found in a lot of care homes. There's not enough 12 stimulation. And what dementia patients need is 13 stimulation. But that means you have to take on extra 14 staff and that costs more and councils won't pay the 15 going rate and all the rest of it. 16

Then the business of changing -- not changing the hearing aid batteries . The number of times I had to ask, and they said, "Yes, yes, we'll put it in the care plan", and it would be fine for a month, five/six weeks and then suddenly you would find they weren't doing it again and you would have to remind them, "She can't hear you. Can you change the batteries?". Aside from those, I really had no complaints.

110

24 Q. One of the points that we've heard a lot about -- you refer to it later in your statement at paragraphs 87

- to 90 and we will look at it when we come to that
- point --
- 3 A. Okay.
- 4 Q. -- is DNRs.
- 5 A. Hmm.
- 6 Q. You had a DNR as part of your mother's care plan in the care home, as I understand it.
- 8 A. We did because we'd been through that with Dad. My mum 9
  - could be quite direct, and I remember driving down from
- 10 Forfar to visit her one day and walking in through the
- 11 door -- and this is at a time when Dad was -- had just
- gone into the care home -- and I'd just got through the
- 13 door and she turned round and said, "If your dad
- 14 collapses, do you want him revived?"; "Um, is it all
  - right if I take my jacket off before I answer that?".
- 16 But, yes, we decided it was appropriate in Dad's case
- 17 and it was appropriate in Mum's case too, when it came
- 18 her time to go into the care home. So we were quite
- 19 happy to sign these things. We'd discussed them and
- 20 said "Okay", and on the understanding it is what it
- 21 said, "Do not attempt cardio-pulmonary resuscitation".
- 22 It does not mean, "Don't give them any treatment".
- 23 Q. Yes, it was specific to that form of resuscitation?
- 24 A. Yes.

15

Q. You also tell us that the -- it was for you really to

111

- 1 contact the care home to obtain updates in relation to
  - your mother's condition but occasionally they would be
- proactively reaching out to you and telling you if there
- were any issues that they felt you should be aware of. 4
- 5 A. Yes, I think there's one occasion they phoned up and
- 6 said. "Hello, it's the care home here. Just -- nothing
- to worry about, but we noticed that your mum's big toe
- 8 was looking a bit red and raw today so we've got the GP
- 9 to come in and your mum's going to be getting
- 10 antibiotics for a week. Is that okay?", and just little
- 11 things like that they would tell us.
- 12 Q. I think that perhaps takes us to another point about the
- 13 availability of medical professionals within the care
- 14 home. I think you've made the point in that very
- 15 answer, but you also make it in your statement, that
- 16 there was a GP surgery that covered the area --
- 17
- 18  ${\sf Q.}\,\,--$  that covered the care home.
- 19 A L'd like to make it clear that this was a care home and
- 20 not a nursing home because there is quite an important 21
- 22 Q. Obviously.
- 23 A. There was a GP surgery that served that care home and
- 24 that GP did -- that GP grouping did support the care
  - home, and there was never a problem that I heard of. If

1		somebody needed to see a GP, they would come to the	1		it's in Italy and Italy is locking down whole regions
2		home.	2		and the hospitals are getting overwhelmed. Then the
3	Q.	I think you go on in your statement to talk about the GP	3		stories started coming out of Spain about care homes and
4		care that was afforded to your mother ——	4		staff being too afraid to go in and tend to the
5		Yes.	5		residents and them being left basically to die. And
6	Q.	— in the latter weeks of her life . I think I remember	6		it's horrific . And I'm thinking, "Surely we're going to

Yes, and my stock answer to people who say, "Oh, this is

and then it was going wider, and the next thing you know

house in Forfar watching the news programmes. I didn't

- 1 have teams of medical specialists or scientists advising me, but I could see what was happening. How did the Government not know what was coming? 4 Q. Did you have to have a scientific background in order to do that? 5 6 A. I don't think so. I think you had to have a large dose of common sense and a bit of life experience to see this 8 was coming and fast. 9 Q. Right. Can I take you on to communications that you had 10
- from the care home? Paragraph 29, you tell us that you
- 11 got an email from the care home, your mother's care 12 home, saying that it was going into lockdown and that
- 13 there was to be a restriction on visiting . The
- 14 exceptions were to be, as you put it, emergencies or
- 15 extreme circumstances. Now, you say in paragraph 30
- 16 that there was not a definition of "emergencies or
- 17 extreme circumstances"
- 18 A. No.
- 19 Q.  $\,--$  but you applied, I presume, your common sense as to
- 20 what those amounted to. Generally, what was your
- 21 reaction to that approach being taken by the care home?
- 22 A. I welcomed it. I thought it was the right thing to do
- 23 because we had some of the most vulnerable people in our
- 2.4 community inside care homes. Frail people with
- 25 comorbidities. If that virus got in, it was going to

- devastate that population, so I was all for keeping it 1 2
- 3 So I welcomed the fact they were doing these 4 restricted visits and putting these limitations on, 5 although they might need some interpretation. I mean, 6 for me, an emergency isn't that, "Oh, my mum's run out 7 of her favourite soap", but an emergency might be, "My 8 mum's had a suspected heart attack. She might need to 9 go to hospital" -- that could be an emergency -- or, 10 "She's about to breathe her last breath", that might be 11 an extreme circumstance. But, you know, apply a bit of
- 12 common sense. It means: don't go in unless you really
- 13 have to and you can't avoid it.  $\,$  Q. In that context, did you have regard to the impact that
- restrictions on visiting would have had or did have on 15 16 your mother?
- 17 A. At that point in time, no. I think I say this in the 18 statement.
- 19 O Yes
- A. I was 100% for restrictions because I wanted to stop the 20
- 21 virus getting into the home because, once it's in and
- 22 it's circulating, it's good night for so many of the
- 23 people in there. And I backed it, and I subsequently
- 24 have learned from listening to Care Home Relatives and

others that the impacts were not all beneficial; the

- impacts were negative on the residents, even if they
- didn't catch COVID, and particularly for dementia
- patients. And I think I would soften my approach now.
- But I think -- I'm not going to second-guess my feelings
  - at that time. I would stand by the decision I made in
- the circumstances that I made them. I was all for
  - keeping those out of the home.
- 8 Q. I think you make these points at paragraphs 32 and 33 9 and 34 of your statement.
- 10 A. Yes.
- 11 Q. I don't think it's necessary to go over that in any more 12
- 13 A. No.
- 14 Q. Thank you for that. You have given us a section on PPE
- 15 and infection control at paragraphs 35 to 39. There's
- 16 just one point I would like to -- because we can read
- 17 what you say there. There's just one point I'd like to
- 18 take from you, and that's what's in paragraph 37, where
- you say that you were told that the home was not taking 19
- 20 any new residents after lockdown. Did you ascertain
- 21 whether the home was taking in any residents or patients
- 22 from hospitals?
- 23 A. That's why I asked the question about taking new
- 24 residents, period, because that would also include
- 25 taking them in from hospitals. I didn't ask that --

119

- I don't think I asked the question directly about the 1
  - hospitals. I asked, "Have you taken in any new
- residents since you locked down?", and they said, "No",
- so that includes discharges from --4
- Q. Wherever they came from.
- 6 A. -- hospital, as far as I'm concerned.
- Q. Thank you. Now we move on to the section of your mother
  - becoming unwell, and again I don't want to take this in
- 9 perhaps detail because we do realise it will be
- 10 upsetting for you.
- 11 A. Yes.
- 12 Q. But really this began I think on 20 April, where you
- became aware through a rather circuitous route that your 13
- 14 mother was unwell. You tell us about this in
- 15 paragraphs 41 and 42.
- 16 A. Yes. My brother received a phone call from an NHS
- 17 doctor asking to speak to Helen Wightman, and my brother
- 18 said, "Well, she's not on this number, but I'm her son.
- What is it?", and they said that the care home had 19
- 20 called them that morning because Mum wasn't very well
- 21 and the care home had been looking for advice. Now, he 22 did say that he found it very difficult to understand
- 23
- the doctor's accent, so I think what the doctor may have 2.4 been saying was he was asking for Alan Wightman, not
- Helen --

1 Q. Quite right. Q. Just on access to your mum at that time, were you able A. — because I did have a German colleague at one time who phoned at home and asked to speak to "Ellen", and 4 I said, "There's no Ellen here". "No, no, Alan. No, 4 5 Alan"; "Oh, right". 6 So it could have been that, but, anyway, they'd 6 7 phoned asking about -- the care home had been on 8 presumably to NHS 24 or some such looking for advice. 8 9 So my brother then phoned the care home and was told, 9 10 "Ah, yes, we couldn't waken your mum up properly this 10 11 morning". She was described as "listless and sleepy", 11 12 but she didn't have a fever and at no point did she have 13 13 a fever. The temperature was raised slightly but was 14 within normal bounds. And that doctor had said, "Well, 14 15 15 it's rest and fluids", which was usually the go-to thing 16 16 for any ailment, is rest and fluids. 17 Q. Was there any question of hospitalisation discussed? 17 18 A. No, that was not discussed at any point and I was pretty 18 19 convinced I would have pushed back against it anyway, 19 20 and I'll explain why when we get there. But to follow 20 21 on, three days later the GP was sent for because the 21 22 care home staff had heard what they'd described as 22 23 a "crackle" in Mum's chest, so some sort of ruckle or 23 2.4 2.4 noise in her chest. He came in prescribed antibiotics. 25 Here's the section where I say it's not appropriate 25 1 for -- there was no discussion of why hospital was not 1 2 appropriate at this stage, but I would have pushed back 2 3 and said, "I don't want her going to hospital. She has 4 dementia. In a hospital ward, a non-specialist ward, 4 5 without dementia carers, she' II  $\,$  be completely  $--\,$  she 5 6 won't know anyone, she won't know what's going on around 6 7 her", and there was so much COVID circulating in the

8 community and COVID appearing in the hospitals, I felt 9 the care home was the safer option. So I did not want 10 her to go to hospital. 11 Q. Okay. At paragraph 47, you tell us about the first of 12 the cardinal COVID symptoms which afflicted your mum, 13 and you mention that a senior carer who had been absent 14 for a few days had noticed a very serious deterioration 15 in her condition. 16 A. Yes. This particular carer, she had been on holiday, 17 she hadn't seen Mum, but she used to -- when I would go 18 in to visit Mum, she would say, "Oh, your mum's lovely. 19 I call her 'my wee pet'. I'd just love to take her home 20 with me each night". She really had a bond with Mum. 21 She'd been on holiday, she came back and she -- "Oh, my 22 goodness. Look at the state she's in", and phoned to 23 get a GP back. She couldn't believe how much change 24 there had been in Mum in the two weeks that she hadn't

122

to get into the care home to see her? A. Only under the --Q. Under the criteria of it's an emergency? A. -- the criteria of it's an emergency. We decided it wasn't an emergency. Mum was described as "not properly wakening up". Now, I can go back, and I've already told you, when Mum broke her hip and spent two weeks in delirium and I thought, "She's never going to come round". Prior to that, what finished my dad off was he had a fall in his care home, broke his hip, went in, had an operation, they sent him back to the care home and Dad never recovered full consciousness. So I knew that the chances are Mum might -- she might not wake up. They said to me, "Look, you can come in, but you'll be fully PPE'd up. You'll get 15 minutes. If your mum's asleep when you come in, we won't wake her, we won't try to wake her", and we just felt: what are we adding there? What's ... and I also tell people this  $-\!-\!$ and my mum -- I've told you she could be quite direct. And I remember a number of occasions when I would report I'd done something and it didn't turn out right, and she would just turn round and go "That was awful silly, wasn't it?". And I could just picture my mum, if my brother and I and the family had gone in to visit her

123

and we'd been infected and we subsequently had a serious illness or lost our lives -- I could just picture my mum saying, "That was awful silly, wasn't it? Why did you come in? You knew there was a risk. Why did you do that?". So I and my brother decided we wouldn't go in and I don't think any member of the family went in at all during those times. They weren't supposed to 8 anyway, they'd been asked not to do it, so we didn't. 9 Q. With the deterioration in her condition --10 A. Yes. 11 Q. -- I think there was something called "Hospital at Home 12 care" --13 A. Yes. 14 Q. —— that was offered. 15 A. That's from --Q. This was something from the Victoria Infirmary in 16 17 Kirkcaldy, I think. 18 A. That's right. The first application of antibiotics 19 hadn't worked, hadn't been successful, caused Mum 20 terrible diarrhoea. She'd always had a problem with 21 taking antibiotics and that -- so they'd stopped, and 22 this had dehydrated her. So they decided that she 23 needed intravenous fluids and perhaps intravenous  $-\!-\,\mathrm{I}$ 2.4 think they stopped all the antibiotics at that time.

124

But she needed fluids.

So they said, "Well, we can't do it. We're not 1 2 a nursing home. We'll have to get Hospitals at Home to 3 come out", and they came out three times a day from 4 Victoria Hospital. I was so much happier that they did 5 that, rather than say, "We're going to send your mum to Victoria". I would not have been happy with that. So 6 she got hospital care, but in a care home setting in her 8 own room, with people that she knew round about her. 9 For me, that was the best option. 10 Q. Thank you. Things escalated thereafter and part of the 11 information that you obtained was through the local news 12 paper. The Courier --13 A. Yes.  $\,$  Q.  $\,$  — about an outbreak of COVID within the home. As you 15 tell us in paragraph 53, there were 16 positive tests in 16 your mother's care home. 17 A. 16, and at that time the number of residents was 35.

- 18 Q. Now, your mother wasn't one of those who was included in the 16 because her test was inconclusive.
- 20 A. That's correct, and she was tested twice and both times 21 it was inconclusive.
- Q. Yes. How did you feel about obtaining that informationthrough the newspaper or from the newspaper?
- 24 A. I think I took it better than the chief nurse and
- de facto deputy manager, who had to phone me and tell

125

me. I think she -- she was very upset at having to give

2 this news. And we don't know who leaked the story to 3 the press, but somebody in the know leaked the story 4 about the number of residents, and the story at that 5 time I think said there were two dead and she said, 6 "Well, it's actually worse. There's now three dead". 7 I felt for her because she genuinely did care. 8 I've told you that Mum had been a keen dancer, and 9 there was one day in the care home they had musicians in 10 to play and Mum had got up out her chair and was standing herself, just moving gently side to side, and 11 12 this lady had gone up -- the carer had gone up and took 13 Mum's hand and had a dance with her. She said she cried 14 going home because she was able to do that for Mum. And 15 I felt so much of her doing that for my mum, to take her 16 up and dance, and said that she just came alive, she 17 just came alive, she danced. And that meant so much to

that lady. And now she was phoning me to tell me,
"We've got COVID in the care home and we've got deaths",
and I felt for her.

Q. I appreciate this is upsetting for you, Dr Wightman, and
 I'm afraid that where we're going is probably not going

126

23 to be any better.

1

24 A. It's becoming clear, I hope, that I bear no malice to 25 the care home and the staff whatsoever. I think they did an amazing job in very, very difficult circumstances

and they shouldn't really have been put in that position

in the first place because we should not have allowed

this virus to circulate and let it rip indeed.
Q. Yes. Can we perhaps take things short? There was

6 consideration given by you and your brother as to the 7 continuance of the Hospital at Home treatment over a few

8 days --

9 A. Yes.

10 Q. — and then, because there was — your mother's condition continued as it was, on 4 May you were asked

12 whether you would agree to the cessation of the

13 treatment, and you agreed to that. I think you say in

14 your statement that you'd had an extra 11 months of your

15 mum after the incident that you referred to earlier --

16 A. Yes --

17 Q. -- where she broke her hip.

18 A. -- the broken hip incident. We were summoned and said,

19 "Look, we've fixed the hip but you'd better be prepared

 $20\,$  for the worst. We don't think she's going to survive".

And so to get her back and to see her happy again and settled and to get a bit of Mum back for another

23 11 months, I'm grateful.

 $24\,$   $\,$  Q. And then, taking it short, I think, Doctor, the

treatment was withdrawn. You had concerns whether you

127

1 had done the right thing, as you say, at paragraph 61 —

2 A. That's another — a close family member said to me,

3 I think on the Tuesday or the Wednesday morning,

4 perhaps, "Oh, God, have we done the right thing?", and

5 I said, "Yes. Don't be in any doubt. We have done the

6 right thing". And she's —

7 Q. I think, again, we'll -- it's best we take this short and, again, it's no disrespect -- that you were phoned

9 by the care home ——

10 A. Yes.

11~ Q.  $\,--$  at 7 pm on 6 May to say that your mother had died.

12 A. That's right. And, as I say here, to be honest, it was

 $13\,$  a relief because she was no longer suffering, and that's

 $14\,$   $\,$  all  $\,$  we had wanted, for her not to suffer. But she was

a tough one. I mean, 88 years old, I think she was

about six and a half stone when she died. She had a

 $17 \hspace{1cm} {\rm bent} \ {\rm over} \ -- \ {\rm the} \ {\rm big} \ {\rm dowager} \ {\rm hump} \ {\rm on} \ {\rm her} \ {\rm back,} \ {\rm breast}$ 

18 cancer, death. But God she fought. She fought those

19 last three days to stay. You know, there was no good outcome, not from where she was.

21 Q. No. You deal briefly with bereavement and you tell us

22 at paragraph 65 that her death certificate noted

23 "Suspected COVID".

24 A. Hmm

5 Q. That I think is a reflection of the fact that the test

1		was still inconclusive.	1	(3.05 pm)
2	Α.	It was —— the test was inconclusive, and I think we	2	(A short break)
3		skipped a paragraph where one of the ——	3	(3.22 pm)
4	Q.	Yes, we did.	4	MR GALE: My Lord, Dr Wightman is back in the room and we
5		—— doctors from the hospital had explained to me how	5	in a position to recommence.
6		a test could be inconclusive, so I understood that.	6	THE CHAIR: Thank you, Mr Gale.
7		But the GPs —— one of the doctors from Kirkcaldy	7	MR GALE: Dr Wightman, can I take you to the section of your
8		said —— when they did the Hospital at Home thing, said,	8	statement which gives an overview of members' concerns
9		"Don't you be in any doubt. This is COVID. I've seen	9	and impacts? And this is at paragraph 77 and following.
10		enough of it now to know", and the GP said it was COVID	10	A. Yes.
11		and signed the death certificate . But because the test	11	Q. Now, having read through what you've said there, I think
12		hadn't been positive, they had to say it was suspected,	12	I should say that a number of the impacts and concerns
13		but they said, "There's no doubt in our mind. This is	13	that you do refer to are matters that the Inquiry has
14		what it is".	14	heard —
15	0	. And again you tell us about the restrictions at your	15	A. Yes.
16	ų.	mother's funeral, which is something that we've heard	16	Q. — from other witnesses — individual witnesses and also
17		a lot about in the Inquiry so far.	17	I've read statements from various people which you
18	۸	Yes.	18	incorporate within here.
19		Six people were allowed, and I think also one of the	19	I don't wish to —— again, I don't wish to
20	Q.	invidious situations you were put in was in relation to	20	foreshorten matters. You look —— as you say,
21			21	"Chronologically, the first concern of the members
	۸	your uncle.	22	
22 23	Α.	Yes, my uncle was about 14 years younger than my mum, so	23	was that of care homes", and you say that, "It was
		Mum — when he was a child growing up, he almost had two	24	a huge scandal at the time".  A. Yes.
24 25		mothers. He had my mum and he had her mum and his own	25	
20		mum, and there was a bond between the two of them that	23	Q. You also use an expression that you referred me to
		129		131
1		was strong, right through their life . And he had given	1	earlier, when you said you were not buying into the
2		up a lot of his time when Mum was at home, before she	2	concept of hindsight.
3		went to the care home, going up every day and just	3	A. Correct.
4		seeing that she was okay. It seemed only fitting that	4	Q. Again for the benefit of the record, can you just
5		he should be included in the six. So my brother and his	5	explain perhaps in a little detail what you have in mind
6		wife and three of their children, plus my uncle was the	6	in that paragraph?
7		six . I decided I would give my uncle the place, which	7	A. There's been a lot of talk about, "Oh, yes, looking
8		I did happily. Now, unfortunately, on the day, they	8	back, in hindsight, we should have done things
9		would not allow him into the crematorium because he was	9	differently ". You were the Government. You had access
10		over 70, and that was $$ not only was it six people, but	10	to experts and specialists . You did pandemic planning
11		nobody over 70 allowed in, so his son ended up having to	11	exercises that were meant to have actions coming from
12		go in his stead. But I did get to write the service	12	them that would equip the country to meet challenges of
13		eulogy for my mum, the celebrant read it out very nicely	13	various types. I'm not buying the hindsight thing at
14		and it was streamed, so I was able to follow that and	14	all . It was lack of foresight . If we'd have done $$
15		also record it and keep it. I don't —— I think I may	15	worked —— stuck to those pandemic plans that were
16		have watched it once since, but I don't keep going	16	devised, and there were lots $$ and I heard a lot $$
17		back to it, but I know it's there if I need it.	17	again, sorry, I'm going to have to go to the
18		I think I honoured my mum in the best way that	18	UK Inquiry —— but I've heard things about task and
19		I could at the time and I'm quite at peace with having	19	complete groups or task and finish groups that seemed to
20		done that	20	start a task but didn't seem to finish it, and I —
21	М	R GALE: My Lord, I wonder if we could take a short break	21	well, there are many reasons for it, not the least of
22		at this point.	22	which is austerity, I guess, and that's the reason for
23	TH	HE CHAIR: Of course. About 15 minutes, Mr Gale?	23	running down stockpiles and privatising left, right and
24		R GALE: That will be plenty, my Lord, yes.	24	centre people who said they could do a job more cheaply
25		HE CHAIR: Thank you.	25	without necessarily committing to the quality of job
		:		

1 that is done. And I'm thinking in this instance about if you're an old person needing care for dementia or 2 the management of PPE, the stockpile. something else, this is no longer provided by the NHS. 3 So there were many, many things that could have been This is now something called "care" and we get that off 4 done differently, had the pandemic preparation exercises the Government books by privatising it. So it was all 5 been followed through to some kind of logical conclusion very well, "Protect the NHS". Where was the protection 6 and plans on the shelf. Now, I also agree a plan is for care? It didn't seem to exist other than perhaps in only as good as the day it's written and it may not the mind of Mr Hancock. 8 apply in the real circumstances that hit you, but you've 8 Once —— "Well, it's private providers. We don't have to -- they're responsible for their own business. 9 got somewhere to start from, instead of just starting 9 10 from, "Gosh what do we do now? We've got this thing They can source their own PPE". And many care homes 10 11 rolling towards us. What are we going to do?". 11 didn't get any help to get PPE from Central Government 12 Q. I suppose also a plan is only as good as its for quite some time and some way into the pandemic. 13 implementation? 13 Probably by the time wave one was subsiding, they 14 A. That is also correct, that it's all very well having the 14 started to get help with PPE sourcing and provision. 15 And, similarly, the care, "Oh, that's local government 15 plan, but if you have no means to put it into practice. 16 then it's not worth very much. looks after that. That's nothing to do with central 17 Q. You do use the word "scandal", and I'd like to just 17 government. Let them sort it out. They're responsible 18 explore that with you a little . Why do you use that 18 for that". 19 19 word? To me, there was a completely callous attitude and 20 A. Because we —— and I think I said this earlier —— in 20 Central Government rolling responsibility away from 21 fact, we say it here -- we saw what happened in Italy, 21 themselves and saying, "That's somebody else's problem. 22 we heard reports coming out of Spain that care homes in 22 We're going to save the NHS". The NHS was meant to save 23 particular  $\,\,--\,$  the elderly were just being left to die in 23 us, not the other way round. 2.4 Q. Just looking at the position and role of workers in the 2.4 Spanish care homes. The workers were so scared to go in, scared for their own lives. This is all well two sectors, which is how you begin that paragraph, it's 133 135 1 documented and reported at the time. Why did we think 1 perhaps reflected also in the fact that, in your 2 somehow we would be different? On what basis would this discussion with me earlier about the care that was 3 not happen in the UK? Where's the evidence that says. afforded to your mother --4 "We're going to stop this thing from happening in the 4 A. Yes. 5 UK"? By what means? A wing and a prayer? Hope? You 5 Q. -- you don't criticise in any particular way --6 know, there was not enough foresight of, "This thing is 6 A. No. coming. How are we going to stop it?". It seemed to be Q.  $\,--$  those who worked within the care home sector. Do you 8 all about, "Well, it's coming. There's nothing we can 8 feel that as a generality they were unfairly either 9 do. Let's try and mitigate it, but let it flow through 9 treated or castigated? A. I think, yes, they were. We seem to think that it was 10 10 the population, fastest way of getting immunity", blah 11 11 okay to treat care homes as if they were isolation blah. The whole ethos was just wrong, and I still say 12 it's a scandal, what happened in the care homes, because hospitals. We could take these positive -13 we did have a model several weeks ahead of us of what is 13 COVID-positive patients who didn't really need to be in 14 coming your way but we didn't do anything to mitigate 14 hospital out of hospital to make way for the next wave 15 15 of COVID patients that would be coming in and would need against it. 16 Q. In the following paragraph, you express sympathy with 16 the beds. And where do you stick them? Well, let's 17 care home workers. 17 stick them in a care home. Why? A care home exists and 18 A. Yes 18 its function and its ethos is that residents should not 19 Q. I think what you do is contrast their position within be isolated. They should mix with each other. They 19 20 20 should mix with staff. You turn that completely on its the care home sector with those workers within the NHS. 21 Can you explain why you do that? 21 head and now suddenly they've got to be isolation 22 A. Well, I wasn't around when the NHS was born, but 22 hospitals, and they don't have nurses, a lot of them, so 23 I believe it was meant to be from the cradle to the 23 how are they going to achieve this? This was never 24 grave healthcare. Now, somewhere along the line we 24 explained to me. How is a care home supposed to turn

136

detached part of that from the NHS responsibility and,

itself into an isolation hospital? It makes no sense to

9

10

11

13

14

15

16

17

18

19

20

21

22

23

24

me, and that was a scandal. I've never yet seen any 1 2 piece of evidence from anyone that says, "This was 3 a good idea". Common sense again -- forget the 4 science -- common sense says you do not put people who 5 are infected with a highly contagious virus, for which 6 we have no treatment, for which we have no vaccine, for which we have no cure, in amongst your most clinically 8 vulnerable people in society. That's madness. 9 Q. Thank you. You also mention the situation of medical 10 care within care homes in paragraph 79. To a certain 11 extent we've already touched upon this. Again, you 12 praise the GP whose services were afforded to your 13 mother in the care home --14 A. Yes. 15 Q. -- and also the Hospital at Home service. 16 A. Yes. 17 Q. But you indicate that that was not always the case and 18 this is material that you've obtained from your membership. I think: is that right? 19 20 A. Yes. Yes. I can recognise one of those examples as 21 someone who has already given evidence to this Inquiry 22 in their own right. 23 Q. You go on to say in paragraph 80: 2.4 "To me, the biggest failing of all has been in the 25 hospitals with COVID being able to circulate pretty much 137 1 freely in the hospitals." 2 A Yes 3 Q. And I think you make the point that, within your group,

Q. And I think you make the point that, within your group,
 three times as many people have been bereaved from
 hospital—acquired COVID compared to those who have been
 bereaved through care homes.

7 A. Yes, I think the latest stats that I saw, last time 8 I ran them, was 25%. One in every four of our members 9 lost somebody because of nosocomial infection -- so they 10 went into hospital for one reason and they were infected 11 with COVID whilst in there and they didn't survive --12 versus 9%, typically, for care homes. Now, that's why 13 I say it's three times bigger. If it was a scandal what 14 happened in the care homes, it's three times bigger 15 a scandal what's happened in the hospitals and how we've

not been able to control the circulation of COVID within medical settings.

Representation of COVID within medical settings.

Representation of COVID within medical settings.

20 ever knew about infectious disease control."

Can you explain that a little more, please? A. When my mum was a girl, she had -- I think it was -- I'm

going to say it was scarlet fever. I may have got that

the family, taken to an isolation hospital, and she said

that her dad would cycle out from his home after work — out to the hospital every day to see her, and he'd put little toys on the window ledge. That was harsh, but that was an isolation facility. That was take this person out, put them on their own, give them nursing care but separate them, stop this from circulating. That's an extreme case, but I don't think we do this anymore.

We've got numerous examples —— we've heard some of this —— about people wandering from red zones to green zones in hospital without changing PPE, sometimes without any PPE —— maybe not medical staff, but support staff, technical staff, someone coming to change a light bulb, someone coming to empty a bin. There doesn't seem to be —— I go back to an example that maybe isn't a very real one, but, you know, I remember watching old black and white films where you had a matron who was in charge of the ward, and that matron was the nearest thing to God. What she said went and nobody but nobody dared to deviate from that.

It seems to be very lax now. People just — there doesn't seem to be the control there anymore that there used to be. As a complete layman in this matter, they are just observations I've made on the rare occasions I've had to go into the hospital myself.

139

1 Q. The domiciliary care that you refer to in paragraph 81, 2 this is again something that the Inquiry has heard about

3 and will continue to hear about --

4 A. Yes.

Q. — and the lack of care particularly for disabled people
 within their own homes.

A. Yes.

8 Q. You say, reading short, that all of that should have 9 been foreseen. This is the last sentence in 10 paragraph 81.

11 A. I see, veah.

12 Q. Why do you think that, in relation to domiciliary care, it should have been foreseen in particular?

14 A. It's another way of providing care to people that need

15 it, but in their own home, so it's a far -- if we get to 16 the pound signs, it's a far cheaper way of providing 17 these people with the care that they need than putting

them into an institution where they probably don't need

to be. They just need a little bit of help to stay

home. But of course that means that these people to

home. But of course that means that these people thatare providing that care are going home to home to home

to home, so they need to understand how to controlinfections and what appropriate equipment to wear to

24 stop the spread. It's a big part of provision of care

stop the spread. It's a big part of provision of care.

Not everybody has to go into a care home. And why were

21

these people not thought about more in the planning? 1 Q. Again you're taking, as I understand it, instances from the membership of your group to inform what you're 4 saving here. 5 A. Yes, they got --6 Q. Just one point I'd like to ask you about is that you say, within that paragraph 81, that people were afraid. 8 Now, again, this may seem very obvious, but what was it 9 that was causing that fear? Was it the messaging? Was 10 it the non-availability of services? 11 A. This — the fear was, "This thing kills. It transmits 12 readily. It's now in our country. How do I avoid this? 13 And I am someone who is going in providing care to 14 people in their own homes. How am I going to avoid 15 getting this?". There's instances of -- I think 16 there's, in one of the examples, a lady that needed care 17 in their own home and had mentioned to the carer one day 18 that, oh, her grandson had been a wee bit unwell last 19 time she'd seen him, and that was enough on that day for 20 them to say —— they went back to the office and said. 21 "We're not going to that house again because she said 22 her grandson is not well and he's been to the house. He 23 might have COVID", so they just stopped going and she 2.4 was left with no help. That's not right. You can't 25 just abandon people, you know.

There should have been a way to provide that care. And

They needed the care, they should have had the care.

3 if that was appropriate PPE, if it was more training or 4 even if it was taking that person into some sort of 5 temporary setting where they could be administered to, 6 there has to be something. You can't just leave people in need of care alone and not provide. 8 Q. You talk about triage arrangements, in a way looking at 9 it from both sides in paragraph 82 and 83. I think we 10 can read that. You do give an example in paragraph 83 11 and I wonder if you'd just read what you say there. 12 A. In 83? 13 Q. In paragraph 83. 14 A. Yes. 15 "And then we have the other side of it ... " 16 No, that's not good English. 17 "[On the] other side of it there were people in 18 hospital for whatever reason but then caught Covid while 19 in hospital. Some had mild symptoms while in there, so 20 they were sent home. 'Send this 83-year-old man back to 21 his 82-year-old wife, don't even say he's got COVID'." 22 This is a real example of what happened to people 23 who are now in -- or the relatives are now in our group 24 because both of those —— the elderly gentleman and his wife both died of COVID because he was known to be

home to his wife, don't even say he's got it, and they both die. That's happened on more than one occasion. There are, I think -- there are at least a couple of instances in our group where something very, very 6 similar to this was done, and that really should not have been the case. 8 Q. You mention also the situation of people who weren't 9 able to advocate for themselves and they didn't get the 10 treatment they deserved. This is paragraph 84. I think

infected, they couldn't do anything for him, sent him

11 you give a specific example of that subsequently in your 12 statement at paragraph 94.

13 A. Ah, yes, that's the one, yes.

14~ Q. You talk about one of your members having a non-verbal younger sister with learning difficulties . 15

16 A. Yes.

1

4

8

10

11

12

13

14

15

16

17

18

19

21

22

23

2.4

17 Q. Can you tell us about that, please?

18 A. I only know the skeleton story here, but it's as it says. She was basically her sister's advocate. The 19 20 sister needed to go into hospital. I don't 21 necessarily know the underlying reason why she needed to 22 go in , but -- so she went in with the sister, stayed 23 there for three days and after three days was 24 shown the door. Now, I could read between the lines

and say, "Well, maybe she was too demanding, maybe

she overplayed ..." -- I don't know the -- but, anyway, for whatever reason she was ushered out, and when the hospital phoned and asked her to come back in because her sister wasn't going to make it, she got in there to find her sister was in a really terrible, terrible state. Basic care clearly not having been done, basic hygiene not having been done for the sister, and shortly after that the sister died.

So here was someone who should have had an advocate there, had an advocate there in the beginning, that advocate was then asked to leave for whatever reason and called back in at the end of life . She describes on the day she was asked to leave and the sister was screaming and screaming, and she went and knocked on the door, and "Let me back in", and they wouldn't let her in. Now. I've no doubt that situation was difficult for the healthcare staff too and perhaps they were overstretched, perhaps they were overworked, but it wasn't the right treatment for the younger sister.

20 Q. Can I move on to paragraph 85 and the question of telephone access and the 111 number, in which you say that your members have told you that that appeared to be a bit of a lottery, to a certain extent, depending on who was actually answering the phone, I suppose; is that correct?

1

2

10

11

13

14

15

16

17

18

19

20

21

22

23

2.4

1 A. Well, again, I think when these phone lines were set up, the idea was there would be a trained doctor or a trained nurse there to assist with interpretation of 4 the call, the incoming calls, but they had to draft --5 because they needed those people in hospital, not 6 answering phone lines, they needed to bring people in who were used to dealing with phone calls, so people who 8 worked in call centres. And I believe the format was 9 they were given a flow chart to follow. If they ask 10 a series of questions, it will take you down a path and 11 that will lead you to the answer of what should you do 12 with this caller, and oftentimes there wasn't 13 a qualified nurse or doctor there to go and say, "This 14 is where it's taking me, but I don't think this is 15 right. Could you just have a look at this for me?", you 16 know. 17 Q. You give an example in paragraph 86 about that, it's 18 been passed on to you and you make reference to this in 19 the statement that you gave to the UKI. Could you just 20 tell us about what that record is? 21 A. Well, this is as I had understood it at the time I wrote 22 this, but again one of these relatives has actually 23 given quite a full account of this, one of these 2.4 particular stories, and I realise I didn't know the full extent -- well, because I don't ask the full extent, 145

1 I just want to know the basics. But, yes, as 2 I understood it, they couldn't get treatment because — 3 they've phoned up to get help and, going down through 4 the flow chart, the person they spoke to said, you know, 5 "What you're supposed to do is you're supposed to stay 6 home and basically tough it out. You stay where you are". A lot of that was driven by the fact that they 8 were young, fit  $\,--\,$  formerly fit men in their late 9 20s/early 30s. So by the time they actually could get 10 treatment, it was too late. They were lost. Q. You also have a section on DNACPR. To a certain extent 11 12 we've looked at this a little bit --13 A. Yes. 14 Q. -- in the context of what was in place in relation to 15 your mother. 16 A. Yes

22 attention about that distress and what do you feel 23 should be done to alleviate the distress? 24 A. I think there are people in the group who can address this far more effectively than I, but there seems to be

21 Q. What is it that you would want to bring to the Inquiry's

Q. But you do make the point in paragraph 90 that this is

an issue that has caused a lot of distress among your

146

a failing that the DNACPR which, as we said earlier, has a specific meaning, in some cases was applied apparently with the consent of the patient but the said patient had delirium or couldn't communicate effectively but they had agreed -- understood and agreed that this was to take effect, that sometimes they -- the person with power of attorney for medical matters and might therefore have been expected to have signed in lieu of the patient wasn't even consulted.

And it's a grey area because I do -- what little I understand of it -- and this is way outside my real area of any kind of expertise -- is the medics will apply this in the best interests of the patient regardless of what anyone else thinks, close family member or not. I really don't know the fine detail of that. I really don't know. Someone would have to explain that to me as well. But I know it's a matter of huge concern, these things getting to be applied and the meaning gets stretched. It's not in the case of the heart should stop and you want it restarted. It seems to be widened out to removing other forms of treatment. It's almost a "Do not bother treating", and it was never intended to be that. But, as I say, this is well beyond my area of expertise. But there are good people in the group who have the expertise and can assist.

147

 $1 \quad Q. \quad {\sf Also} \ -- \ {\sf and} \ {\sf I} \ {\sf suppose} \ {\sf it's} \ {\sf a} \ {\sf matter} \ {\sf largely} \ {\sf of}$ communication and advice -- you make the point about the distinction between end-of-life care instead of palliative care. You say that -- this is 4 5 paragraph 91 -- there should be dialogue about that. A. Yes, and again it probably comes down to a clinical 6 decision on what is best for that patient, as judged by 8 a medical professional --9 Q. Yes.

10 A. -- versus what the family member might think. And, 11 again, where does all that really lie? It's a difficult

12 enough topic at the best of times, but in the midst of

13 a pandemic, when everyone is overworked and the whole 14 system is about to be overwhelmed, perhaps, I think

15 there are issues around the ethics of some of these

16 decisions. But, again, it's beyond my scope to define 17

it any better than that. I just know it's been a huge 18 concern for our members.

19 Q. And just finally  $\,--\,$  and it is again a matter that we've 20 heard a great deal about -- and that's digital 21 exclusion; people who simply don't have access to the

22 internet or have the ability --

23 A. Yes.

2.4 Q. -- to use devices that would connect them to the

148

17

18

19

20 A. Hmm, it has.

1	Α.	That's right. It's not everyone who can go online and	1	Q.	Paragraphs 102 to 104 I'd like to ask you about because
2		book a GP appointment, you know. Maybe visually	2		I think here you were putting on your scientific hat, if
3		impaired, maybe just not used to $$ not technically	3		I can put it that way, and in particular you are
4		minded, can't do these things. And we all know,	4		observing that cabinet ministers $$ and I don't know
5		I think, the problems of phoning up and trying to get	5		whether that's UK cabinet ministers or Scottish cabinet
6		a GP appointment, but this is exacerbated even more	6		ministers or both $$ but what you say is:
7		because now you're on $$ you're trying to use an online	7		" whatever skills they may have, most of them are
8		system and you still can't get a GP appointment.	8		not scientists and most do not get the concept of
9	Q.	Thank you. Could we move to "Lessons Learned", please,	9		exponential growth."
10		at paragraph 100 of your statement?	10		Can you just explain why you say that, please?
11	Α.	Yes.	11	Α.	I think people tend to think that growth is a linear
12	Q.	You say:	12		process, it's a straight line, and it isn't.
13		"The first thing we have always said we wanted was	13		Exponential growth isn't that. Exponential growth is
14		a factual narrative of what actually happened."	14		a doubling of the number of whatever it is you're
15		You say it should be:	15		considering in unit time, and maybe one way of
16		" stripped of all the spin and the protecting	16		visualising this is to think of a chess board ——
17		your own backside."	17		okay? — and you put one grain of rice at the bottom
18	Α	Yes.	18		left —hand square, then you go to the next one and you
19		I'm not quite sure whose backside you have in mind,	19		double that, that's two, you go to the next one, that's
20	٩.	but —	20		four, eight, 16, 32, 64. Before you get very far,
21	Δ	Whoever is in the frame, whoever had the responsibility	21		you're up in the thousands, and probably by the time you
22	,	for a particular area. Why — tell us what happened,	22		get to the top of the square, it's tens of thousands, if

When you're dealing with that kind of growth, you have to go hard and quick. You can't sit around waiting till you're absolutely certain you need to react because it's too late.

 $\,$  25  $\,$  Q.  $\,$  -- then at least you should be in a situation where you

25 A. Yes.

1		appreciate and understand the information that is being	1		I'll never understand why care homes were felt to be the
2		given to you by your experts who do understand it.	2		right place to put these people because it's balance of
3	Α.	Yes, and I think there was probably a lot of nodding	3		risk. Now, it might have worked and there might not
4		and, "Hmm, yes. Hmm, yes. Right, good", not having	4		have been deaths. As it happens, it didn't work and we
5		understood what was being said. Now, I think $$ again	5		had thousands of deaths $$ tens of thousands of deaths
6		to go to the UK Inquiry, I think Mr Keith at one point	6		across the UK of people in care homes because they just
7		was quizzing the scientists on, "Did you think that the	7		thought, "It's risky, but let's do it anyway". That's
8		minister you were explaining this to had understood what	8		what I mean when I talk about "precautionary principle".
9		you were saying?", and in some cases they've said, "No".	9	Q.	In simple terms, does it involve, in your view, the
10		Well, then who was the failing with? Is it with the	10		identification of the risk and then taking steps
11		minister or is it with the adviser? If the adviser	11		which ——
12		thought the advice he was giving wasn't clear enough, he	12	Α.	Yes.
13		should have found another way or she should have found	13	Q.	— are designed to obviate that risk?
14		another way to deliver and make it understandable or,	14	Α.	Yes, otherwise known as "mitigation", I think.
15		failing that, go up the chain and say, "I'm afraid	15	Q.	Mitigation, yes.
16		Minister X just isn't getting what I'm saying", you	16	Α.	Yes. Sorry, I've distracted myself by looking at the
17		know.	17		next point, but we've covered that one.
18	Q.	That leads you, in paragraph 104, to the view that	18	Q.	Well, let's go to the next point. You mention also the
19		lockdowns were too late.	19		Hillsborough Law campaign ——
20	Α.	They were, and I think the Prime Minister even conceded	20	Α.	Yes.
21		that now, that, yes, they were too late because of	21	Q.	and in particular in that context you talk about
22		exponential growth. If you hit it hard and early and	22		a duty of candour. Now, obviously the implementation of
23		for a little bit longer than you like, you save a much	23		the bishop's $$ and regrettably I've forgotten his
24		longer, bigger and deeper lockdown later on. And	24		name $$ the bishop's report $$
25		that $$ well, I know we're heading into something else	25	Α.	Yes, I've forgotten his name as well for the moment.

		133			133
1		in a minute so I'll wait till we get there.	1	Q.	—— into Hillsborough has been in the news again this
2	Q.	Okay. The third lesson that you refer to in 105 is the	2		past week.
3		precautionary principle . Now, for those of us who have	3	Α.	It has.
4		spent some time in our careers doing environmental law	4	Q.	Again, can you explain to us what you see as its
5		and planning law, the precautionary principle is	5		significance for either this Inquiry or indeed the
6		something that we are very well familiar with. Can you	6		general approach to lessons to be learned?
7		explain how you see its application here?	7	Α.	We've seen through the history of the Hillsborough saga
8	Α.	The example I give here is discharging people into care	8		a number of occasions in which conclusions have been
9		homes without testing. Now, I think I said earlier,	9		reached based on information available only to be found
10		I haven't found anyone yet who has stood up and said,	10		later that other information that cast a different light
11		"Yeah, I advocated that and I said that was a good idea	11		was known but was not made available. It was covered
12		based on this information". I think people were going	12		up, it was kept quiet, it was hidden from public view.
13		on a bit of a wing and a prayer that, "If we do	13		Now, anyone who's being paid out of the public
14		discharge these folks from hospitals into care homes and	14		purse — examples would be MPs, MSPs, cabinet ministers,
15		if the care homes know how to isolate them and if	15		secretaries of state, civil servants — any of these
16		they've got the right PPE and if and if, we won't	16		people, when something happens and an investigation is
17		have a disaster". Well, you've got so many "ifs" in	17		launched and they are asked what they know about
18		there, you're going to have a disaster. The	18		a particular topic, it shouldn't be for the interrogator

24

precautionary principle says -- l think l said it again

place to be putting highly infective people in amongst

sensible to you?". Wouldn't you have a note of, "Just

hang on a minute, let's think about that. No, couldn't

we put them somewhere else instead?". You know, why --

earlier on -- "Do you really think this is the right

your most vulnerable population? Does that seem

1 I think everybody that worked in it knew that the again. 2 software was deficient and the software was generating 2 A. Yes. 3 false imbalances and people were being accused of Q. You then go on to make a comment about the care system 4 stealing that money, and all the time it was the system. in this country and the necessity to make the 5 But people that knew about it kept quiet about it and distinction between a care home and a nursing home. 6 6 a lot of people suffered because of it. A. Hmm. 7 I think there just needs to be this general openness 7 Q. You say you don't think that is widely understood. 8 and honesty -- there's an old-fashioned word -- that if 8 A. No. 9 you're in one of these positions and you're asked for 9 Q. Can you explain that, please? 10 information, you don't sit on it. You bring it forward. 10 A. I think I hear —— I used to hear it when I went into my 11 You don't hide. That's kind of what I mean by -- that's 11 dad's care home and I heard it in my mum's care home as 12 my understanding of the Hillsborough Law. But of course well, that people would refer to carers as "nurses". 13 it's not going to happen yet, we read the other day. 13 Well, they weren't nurses. They were carers. A nursing 14 Q. Finally on your lessons to be learned, you refer in 14 home needs to have, I think, at least one registered paragraph 108 to -- it's not a "dichotomy", as you put 15 15 nurse on the staff. I'm not sure what the requirement 16 it, and the question is, "... are you going to protect 16 is to provide shift cover from that one registered 17 people's health or protect the health of the economy?". 17 nurse, but there must be at least one. Now, if you 18 A. Yes. 18 haven't got it, you're not a nursing home, you can't provide nursing care. That's why you have to get Q. You say that you can't do one without the other, and in 19 19 20 particular you make reference to long COVID. 20 someone who is qualified to come in and do that job for 21 A. Yes. 21 you. That's what Hospitals at Home were providing, in Q. Again, can you just explain what you're driving at 22 22 23 there, please? 23 I don't -- but even a nursing home is not the same 24 24 A. I think we've seen some evidence of -- the consideration thing as an isolation hospital because, again, yes, they is, you know: do you go for maximum protection of can provide intravenous fluids or whatever or whatever 1 people's health and let the economy suffer or do you 1 nursing they're permitted to do in the nursing home, but 2 2 protect the economy and let people's health suffer? it's still, at its heart, a care home primarily with 3 I don't think that's a real balance. I think you have some nursing needs also provided for. It is not a place 4 to do both. If you don't have a healthy population, you to put people into isolation . So we've really got to 4 5 won't have a healthy economy, and long COVID is a great have a think about, in the next pandemic, where is the 6 example of that, that we've now -- because we let COVID surge capacity going to come from because it's not run loose into the country and let it run loose, there's appropriate to use care homes as surge capacity for the 8 now 2 million people suffering from long COVID who are 8 9 not as economically productive as they once were and may 9 Q. Thank you. The next paragraph, you refer to the 10 10 never recover back to that level . And that is an construction of the Nightingale Hospital in Glasgow. 11 11 A. Yes. ongoing cost to the economy in the future because these 12 people need care, they need looking after, they need 12 Q. You make the point, as I read it, that -- well, you 13 support. Whereas previously they were contributors to 13 question what was the point of that, particularly if 14 the economy, they may end up as being the receivers from 14 there was --15 the economy. So I don't think it's the economy or the 15 A. Yes. 16 health. I think you really have to do both. That's 16  $Q. \ --$  not sufficient staff to staff it. 17 I think the point I make there. 17 A. Yes. I think we got a bit blindsided by watching the 18 Q. Thank you. 18 Chinese building hospitals from the ground up in 19 You have hopes for the Inquiry and in 19 response to the COVID pandemic, and we thought, "Oh, 20 20 well, we can't do that, but we can repurpose some paragraph 109 --21 A. Yes. 21 buildings and make them into hospitals". Now, there are 22  $\mathsf{Q}.\ --\ \mathsf{you}$  begin with referring to what your brother asked 22 only two possibilities here for me: one, we didn't

58

23

2.4

realise, when we set about repurposing that building,

that we couldn't put anyone in to staff it or, two --

and either way, which one is worse -- we did know that

23

24

what you wanted when you became a member of the

Scottish Covid Bereaved group, and you said that you

wanted to make sure that this is not allowed to happen

we couldn't staff it but we went ahead and converted it 1 members have reported to you? 2 A. I think there was discrimination on age grounds, people anvwav. 3 How could we have done this -- spent this money and not getting treatment both ways, at the upper end of age 4 not be able to make use of the facility when it was and at the lower end, as we've discussed in there. 5 actually converted? Did we not think about the staff or There were discrimination -- again, I saw a little bit 6 of vesterday's questions to the PM and the KC for FEMHO did we know we couldn't staff it, but, "Let's do it anyway. You're seen to be doing something. The public was asking Mr Johnston about institutional racism in the 8 needs to see us doing something. This is what the NHS and he said he wasn't aware of it. He said. "But. 9 Chinese did. We can do a cheap knock-off version of 9 Mr Johnston, there was a report done on it. Have you not seen the report?", you know. 10 that". What was the purpose of building a Nightingale 10 11 Hospital? It's not surge capacity if you can't man it. 11 I think Scotland has gone a lot further into trying 12 Q. Thank you. Pandemic preparation, you say, is not an 12 to bring human rights into its legislature than the rest 13 13 of the UK has done and I think that probably needs to 14 A. Correct. 14 progress a lot further than it has. But there shouldn't 15 be discrimination. whether it's the young lady we spoke 15 Q. Probably I don't think there's much more that needs to 16 be said in relation to that. 16 about who needed an advocate, people being denied 17 17 treatment because they were felt to be too old. 18 Q. You then -- in paragraph 112 you talk about the question 18 I think there was -- there's been an instance --I know when -- I think Chris Whitty if I remember of whether Scotland could have closed its borders on 19 19 20 health grounds or whether the closure of borders is 20 correctly, brought out a triage scoring system at some 21 really reserved to Westminster. 21 point and it was quite badly received and it was quickly 22 A. Well, I think -- in terms of international borders, 22 withdrawn, but I believe there was a period of time when 23 I think it is reserved to Westminster, but I seem to 23 some of the hospitals in Aberdeen actually used that recall at one point Scotland trying to say that you 2.4 2.4 form, and I think that's got to be part of the couldn't travel between the south of Scotland and investigations of the Inquiry as well. I'm not trying Cumbria because Carlisle was a hotspot, and people who 1 1 to tell everyone how to do their job, but really I just 2 worked across the border weren't allowed to cross the think these are the sorts of things we need -- we need 3 border to go to work because there were different levels something like the Inquiry to delve into. 4 of COVID in those two areas and you didn't want to swap 4 Q. Okay. 5 it between the one and the other. And that I think was 5 A. Yeah. 6 permissible because it was a health matter, so this was Q. Dr Wightman, those are really all the questions I have an internal border. But I don't believe the for you based on your statement. I offer you the 8 Scottish Government had any ability to close the 8 opportunity -- if you feel that there is something that 9 international borders. And I do recall at one point the 9 you haven't said or would like to say, this opportunity 10 10 First Minister had asked Border Force — because you to do that. 11 weren't allowed to fly from Scotland, but people would 11 A. Right. 12 just go down to Newcastle and Manchester and fly from 12 Q. Now, normally I might anticipate that that would come in 13 the form of a statement, but I think in your case it there instead and then come back to Scotland -- she 13 14 asked them, "Could you intercept homecoming Scots in 14 comes in the form of verse --15 Newcastle and Manchester?". Well, that got a fairly 15 A. It does. 16 short answer, so, no. This whole question -- I don't Q. -- and I think you've put together something that you 16 17 know legally really where that distinction -- where that 17 would like us to hear. 18 real power lies. 18 A. I would and I will attempt to read it, but if you think Q. But it's a question you pose. 19 19 you saw me weeping earlier, hold on to your hats. But 20 A. Yes. 20 I will do my best. 21 Q. Finally, I think it's a non-controversial statement, 21 Before I get to that, however, can I just say one of 22 which is that rights and actions must be 22 the members asked me this morning would I please raise 23 non-discriminatory. 23 the topic of nosocomial infection and point out that 2.4 A. Yes. 24 COVID has not gone away. This is still circulating

10

Q. How do you relate that to what you feel and what your \$162\$

inside hospitals in Scotland today. It is still causing

1	deaths today. Therefore anything that can be done to	1	My life is no arranged
1 2	deaths today. Therefore anything that can be done to	2	My life is re—arranged
3	expedite — you know, some form of making that better,	3	"You fought it for so long,  Till your strength it was all gone
	making that less of a risk to people who use hospitals		
4	in the short term, would be more than welcome.	4	Our children lost without you,
5	I think that's the best I can do with that for the	5	So for them I go on
6	moment.	6	"'If you have flu, it is not flu'
7	So now, yes, this is — when I began listening to	7	I heard the expert say
8	people's stories, when I first became involved with the	8	I knew then what it really was.
9	group, there were many times I heard things that were	9	And it took you away
10	very difficult to hear. And then I kind of became a bit	10	"'Your mum would be proud' the lady said
11	inured to it for a period, and I remember reading for	11	Trying to make me cry
12	the first time —— and I'd asked somebody, "Would you	12	'Why all this fuss!', I pictured Mum
13	tell me the story of your loss?", and they said, "You	13	But with a twinkle in her eye
14	are the first person to come and ask me about my loss",	14	"The care home staff just did not know
15	and that was so powerful. But I became a bit inured to	15	The ways to keep you safe
16	it and then just this year something changed again and	16	So few were they, they had no help
17	I became quite aware of the way that people spoke about	17	We're left now with this grief
18	what had happened to them, spoke about their loss and	18	"It was you said, your Lottery win
19	little phrases and little things they would say that $$	19	Told 'No more shielding for you'
20	I just wrote them down and I think, "Wow, that was $$	20	But COVID took you off from me
21	that really summarised that". I didn't know what I was	21	I can no longer hold you
22	going to do with these things, but I just started to	22	"But I recall on our last cruise
23	note them, and I'd lay them somewhere in the back of my	23	The way you dressed, your smile
24	mind and after a period of time they started coming out	24	Although we're separated now
25	in the form of verse. And I'd like to read what I have	25	I'll see you again, in a while
	165		167
1	here because $$ it's not everyone in our group that's	1	"I once had thought to understand
2	going to be given the chance to have the privilege that	2	The true depth of such grief
3	I've had today to address the Inquiry, and even those	3	But now I know I did not then,
4	that have have told in some depth their stories and	4	And find little relief
5	they're impactful, but I think there's another way to	5	"Together we supported your
6	perhaps try and encapsulate some of these failings and	6	Beloved football team
7	impacts. And I'd like to read what I have.	7	And in your name I support them still
8	I've called this $$ it has a title and it has	8	With you still there, I dream
9	a subtitle, I've called it, "For Those We Lost to Covid	9	"The first year was just as tough,
10	(And For Those They Left Behind)":	10	As I knew it would be
11	"To those we lost to Covid	11	The second year confirmed this now,
12	These are our words to you	12	My new reality
13	Although you cannot be here	13	"My Brother, you survived the stroke
14	We are forever true	14	That kept you locked within
15	"And of the ways you left us,	15	Denied the jab against Covid
16	They should not be in vain	16	That fight you could not win
17	The promise that we make is	17	"Dear Uncle, I recall your voice
18	These should not be again	18	Your singing and your smile too
19	"You were once a Brylcreem boy	19	Down's Syndrome may have walked with you
20	Your shiny hair slicked down	20	But it did not define you
21	I think about you often	21	"Two young men each sought advice
22	And feel your presence round	22	From Assessment hubs so dismal
23	"I hugged you for the last time	23	That Covid virus took their lives
24	Then everything was changed	24	Their triage was abysmal
25	No touch or words from you, now	25	"An elderly husband was discharged

1	With Covid to his wife	1	INI	DEX
2	Who sadly then caught Covid too	2		
3	And they each lost their life	3		1
4	"This month was once my favourite	4	(called)	
5	' til it took you from me	5	Questions by MR CASKIE
